ECIC2010-Proceedings of the 2nd European Conference on Intellectual Capital Susana Rodrigues,2010

ECIC2009-2nd European Conference on Intellectual Capital Susana Rodrigues,2010 **The Human Resource Challenge of International Joint Ventures** Dianne J. Cyr,1995-11-14 Human Resource Management HRM plays an important and strategic role in the success of international joint ventures Based on information collected from progressive successful international joint ventures involving companies such as Chrysler Ciba Geigy Corning Mitsubishi and Siemens the author delivers chapters rich in verbatim quotations from executives and other joint venture employees Each chapter concludes with a summary of key points that are a guide for attaining excellence in joint ventures The book will be of special interest to both managers and scholars who seek a fuller view of HRM in international joint ventures Evaluating effective joint ventures the author considers the subtle people dimensions involved in these operations A special feature of the book is the treatment of human resource management from the interorganizational viewpoint of parent corporations and the joint venture firm The author addresses such interesting issues as 1 how parent strategic goals influence HRM in the venture 2 the importance of HRM operational assignments within the JV management contract 3 the strengths and limitations of various HRM policies and practices 4 the role of culture and 5 organizational learning at strategic and operational levels in each venture Valuable knowledge into best practices for strategic HRM allows practitioners to enhance their joint venture success *Prospects for Adaptive and Sustainable Livelihoods for the Indigenous Peoples of Africa* Costantinos Berhutesfa,2024-12-20 Beginning in the early 1990s Africa has been experiencing a major ground swell of social economic and political changes An array of declarations and communiqués notwithstanding the crisis has forced indigenous peoples to become chronically dependent on international charity This is one of the greatest tragedies of the 21st century This book is a

result of research conducted across Africa beginning in 2003 that was invaluable in understanding the conditions and views of indigenous peoples who are the victims rather than the beneficiaries of land grabbing and infrastructure development The book highlights the impediments to the livelihoods that indigenous peoples had developed over centuries brought about by political change It also proposes various local and regional actions to mitigate this which aim to simultaneously enhance climate resilience productivity and access to adequate stocks goods and services

Bioengineering Great Britain: Parliament: House of Commons: Science and Technology Committee,2010-03-25 This report finds that the UK has an excellent research base but is still failing to maximise its potential by translating research into wealth and health The road to economic recovery will depend in part on exploitation of the UK's research base which in turn requires efficient translation to generate returns on investments Some areas of bioengineering such as stem cells have clearly benefited from strong Government leadership and support backed up by generous levels of funding from both the public and private sectors Others such as genetically modified GM crops are less well supported and funded This is curious when GM crops are considered by the Government to be safe and offer potential benefits GM crops are certainly the poor cousin in the bioengineering family and we strongly urge the Government to signal its support for GM crops as well as improving the regulatory situation in Europe Regulation of bioengineering is complex and researchers have found that regulations inhibit research and translation either because of regulatory complexity stem cells or a flawed operation of the regulatory process GM crops There are good indications that the UK is learning from past experiences in bioengineering when handling new emerging technologies such as synthetic biology The Government and Research Councils have recognised the value of synthetic biology early and are providing funding The Committee is also concerned that while research is well funded there is not enough forethought about synthetic biology translation for example developing DNA synthesis capability which would provide the UK with an excellent opportunity to get ahead internationally If this is not addressed synthetic biology runs the risk of becoming yet another story of the UK failing to capitalise on a strong research base and falling behind internationally
