Early Buddhist Discourses, 2006-03-15 Twenty discourses from the Pali Canon including those most essential to the study and teaching of early Buddhism are provided in fresh translations accompanied by introductions that highlight the main themes and set the ideas presented in the context of wider philosophical and religious issues Taken together these fascinating works give an account of Buddhist teachings directly from the earliest primary sources In his General Introduction John J Holder discusses the structure and language of the Pali Canon its importance within the Buddhist tradition and the historical context in which it developed and gives an overview of the basic doctrines of early Buddhism

Buddhist Epistemology in the Geluk School Jonathan Samuels, Khedrup Je, Gyaltsab Je, The First Jamyang Shepa, 2025-08-26 Tibet's philosophical tradition is on brilliant display in this anthology of works exploring the means to finding certainty in an impermanent and interdependent world Here descendants of the great Tsongkhapa plumb the nature of knowing to harness it in the service of awakening This volume includes translations of three separate Tibetan works by iconic figures in the Geluk school of Buddhism The first work Banisher of Ignorance is by Khedrup Gelek Palsang 1385 1438 and the second On Preclusion and Relationship is by Gyaltsab Darma Rinchen 1364 1432 The authors popularly known as Khedrup Je and Gyaltsab Je were the foremost disciples of the Geluk school founder Tsongkhapa Losang Drakpa 1357 1419 The third text Mighty Pramana Sun is a commentary on the first chapter of Candrakirti's Clear Words Prasannapada by Jamyang Shepa 1648 1721 These works concern themselves primarily with the Buddhist theory of knowledge the means by which we are able to know things and how we can be certain of that knowledge Encapsulating this theory is the notion of pramana the Buddhist understanding of which was shaped most significantly by the Indian masters Dignaga fifth to sixth century and Dharmakirti seventh century Based on their explanation pramana is often translated as valid cognition a literal reference to the kind of cognition that they proposed could be relied upon to supply indisputable knowledge In the Buddhist Pramana tradition rigorous reasoning is held to play a crucial role in gaining such knowledge and there is no better exemplar of the sophistication this endeavor achieved in Tibet than Khedrup Je's work here He systematically catalogs and rebuts a

host of views with unmatched acumen and flair All three works illustrate how those who follow the tradition have viewed the systematic approach as necessary not only for textual analysis for those seeking to unravel the complexities of the Indian Buddhist scriptures and treatises but also for practitioners aiming to progress along the spiritual path and achieve the highest Buddhist goals

The Swedenborg Concordance John Faulkner Potts,1898 The Principles of Psychology William James,1918 **Hegel, Husserl and the Phenomenology of Historical Worlds** Tanja Staehler,2016-12-07 GWF Hegel famously described philosophy as its own time apprehended in thoughts reflecting a desire that we increasingly experience namely the desire to understand our complex and fast changing world But how can we philosophically describe the world we live in When Hegel attempted his systematic account of the historical world he needed to conceive of history as rational progress to allow for such description After the events of the twentieth century we are rightfully doubtful about such progress However in the twentieth century another German philosopher Edmund Husserl attempted a similar project when he realised that a philosophical account of our human experience requires attending to the historical world we live in According to Husserl the Western world is a world in crisis In this book Tanja Staehler explores how Husserl thus radicalises Hegel s philosophy by providing an account of historical movement as open Husserl s phenomenology allows thinking of historical worlds in the plural without hierarchy determined by ethics and aesthetics Staehler argues that through his radicalization of Hegel s philosophy Husserl provides us with a historical phenomenology and a coherent concept of a culture that points to the future for phenomenology as a philosophy that provides the methodological grounding for a variety of qualitative approaches in the humanities and social sciences
