It covers Definitions and an historical evolution of social development. Key theoretical debates around social well-being, human rights and social justice. Social development practice such as human capital interventions, community development and cooperatives, asset building, employment creation policies and programmes, microenterprises and social planning among others. Future challenges: global poverty, international aid and trade and global inequality, conflict and injustice. Complete with international examples drawn from around the world. Social Development Theory and Practice demonstrates how social development theory translates into practical application. This book is essential reading for students in development studies, social policy, public administration and social work and for policymakers and development practitioners everywhere. Intellectual Property Rights in Central and Eastern Europe Elmar Altvater, Kazimiera Prunskienė, 1998 The establishment of Intellectual Property Rights is of utmost importance for the functioning of the market mechanism in a modern economy based more and more on trade in services and software products. Most Central and Eastern European Countries already dispose on systems of Intellectual Property Rights protection. The law enforcement mechanism in a series of countries however must still be strengthened. In one section of the book the authors give an overview on the institutionalisation of Intellectual Property Rights in Central and Eastern Europe and in some successor states of the former Soviet Union with special regard to Russia. Moreover Intellectual Property Rights systems in the United States and Western Europe are compared and the rules of WTO were taken under consideration in order to find out their potential for fostering or hampering the central and eastern European process of transition. Finally a deliberation on the historical grounds and theoretical foundations of individual and common property rights with regard to economic and technological innovation is included into the collection. The volume gives a comprehensive overview on the state of Intellectual Property Rights institutionalisation in the course of the process of transition in Central and Eastern Europe.
