**Speaking with Angels** Iris Paxino,2023-05-15 If you wish to learn you may learn I go now and will come again And yet I am always with you This was the conclusion to a surprising message that psychologist Iris Paxino received from a bright angelic entity who appeared to her unannounced radiating a comforting warmth filled light The angel s words left her awestruck and deeply moved Paxino had long had the gift of knowing angels but it was immediately apparent to her that this special encounter marked a new beginning She was in

no doubt that she did indeed want to learn and thus began a lively intense dialogue that offered an abundance of insights into the work of angels She discovered that in addition to our guardian angel each of us has a circle of twelve angels who accompany us throughout life and beyond death that we have double and shadow angels and that families communities and social groups have their own angels as do specific landscapes In a series of intimate and enlightening conversations Paxino relates knowledge about these and other types of spiritual beings Angels suffer in sympathy with the earth and stand by us in the dark times of human existence Despite everything they do not condemn but love us with such devotion that we can scarcely comprehend it Your Angels Are Speaking Sharon Rahm,Wendy Krause,2000-12-20 Aristotle s treatise De Memoria is close to theories of memory in the British empiricist tradition Because of its richness of detail it serves as a good introduction to the topic This book first published in 1972 provides a translation of the text which is more faithful to the original than previous ones together with extensive introduction summaries and commentary It has never been superseded
