### **Spectaculum Volume 3 2005:**

**Poetry Project** ,2006      *The Environment of Compassion* Cia Sautter,2025-05-09 *The Environment of Compassion* explores questions of what it means to be in relationship to nature if and how it is a religious experience and how understanding humans as part of nature alters theology The book offers a performance perspective that looks at ritual dance and theatre as a means of presenting discussion of sacred values in the public realm The premise is that performance may serve as an effective means for developing human sacred values that recognize the more than human world as it increases intersubjective awareness to address issues of social and environmental justice The author investigates religion and theatre as a means of better understanding how eco consciousness requires an aesthetic of the sacred Rather than separate religion culture and nature the book presents an aesthetic looking at the relationship between them It considers how an embodied theatrical story might develop an inclusive community of compassion Weaving the chapters together is an account of *The Garden A Refuge* an eco centered play based on the biblical book of Job Ecotheology aesthetics and embodiment theories are examined throughout with scholarship and examples drawn largely from the Jewish tradition The book is relevant to scholars of religion and theology particularly those with an interest in the environment as well as theatre dance and performance studies

*Cities and Fascination* Wolf-Dietrich Sahr,2016-05-23 Bringing together leading urban scholars this book discusses the linkages between the economic social and psychological factors of the urban environment It focuses on the growth of private urbanity that has led to a spectacularization of the city the most extreme component of attention being the fascination which is aroused by attractions and state managed events The complex characteristics of this fascination are examined under the dimensions of aesthetics emotions lived experiences and power structures and governance The interdisciplinary nature of this collection has wide international appeal and will be of interest to academics of social and cultural geography and cultural and media studies

**Queen Hedwig Eleonora and the Arts** Lisa Skogh,2017-07-05 As queen consort and dowager Hedwig Eleonora 1636 1715 held a unique position in Sweden for more than half a century As the dominant collector and patron of art and architecture in the realm she left a strong mark on Swedish court culture Her dynastic network among the Northern European courts was extensive and this helped to make Sweden a major cultural center in Northern Europe in the later seventeenth century This book represents the first major scholarly publication on the full range of Hedwig Eleonora s endeavours from the financing of her court to her place within a larger princely network to her engagements with various cultural pursuits to her public image As the contributors show despite her high profile political position and conspicuous patronage Hedwig Eleonora experienced little of the animosity directed at many other foreign queens and regents such as the Medici in France and Henrietta Maria in England In this way she provides a model for a different and more successful way of negotiating the difficulties of joining a foreign court the analysis of her circumstances thus adds a substantial dimension to the study of early modern queenship Presenting much new scholarship this volume

highlights one extremely significant early modern woman and her imprint on Northern European history and fosters international awareness of the importance of early modern Scandinavia for European cultural history
