The Engaging Reader:

Engaging Young Readers Linda Baker, Mariam Jean Dreher, John T. Guthrie, 2000-03-07 This volume demonstrates how promoting children's engagement with reading can greatly enhance reading achievement. From leading literacy researchers and educators, the book illuminates what a child needs to become an engaged reader and presents a set of instructional principles designed to facilitate this goal. Helping teachers offer a coordinated emphasis on competence and motivation in reading instruction, chapters blend research evidence with practical recommendations. Topics covered include ways to provide children with a good foundation at the word level, help if they are in trouble, ample time and materials for reading opportunities to share in a community of learners, instruction that is coherent, motivating, and responsive to each child's strengths and weaknesses, school-wide coordination of instruction, and continuities between home and school. *Engaging Young Readers* Linda Baker, Mariam Jean Dreher, John T. Guthrie, 2000 This volume demonstrates how promoting children's engagement with reading can greatly enhance reading achievement. From leading literacy researchers and educators, the book illuminates what a child needs to become an engaged reader and presents a set of instructional principles designed to facilitate this goal. Helping teachers offer a coordinated emphasis on competence and motivation in reading instruction, chapters blend research evidence with practical recommendations. Topics covered include ways to provide children with a good foundation at the word level, help if they are in trouble, ample time and materials for reading opportunities to share in a community of learners, instruction that is coherent, motivating, and responsive to each child's strengths and weaknesses, school-wide coordination of instruction, and continuities between home and school. **Developing Engaged Readers in School and Home Communities** Linda Baker, Peter Afflerbach, David Reinking, 2012-12-06 This book comprises a synthesis of current directions in reading research, theory, and practice unified by what has been referred to as the engagement perspective of reading. This perspective guides the research agenda of the National Reading Research Center (NRRC), a consortium of the University of Georgia, University of Maryland, and affiliated scholars. A major goal of the book is to introduce reading researchers to the engagement perspective as defined by the NRRC and to illustrate its potential to integrate the cognitive, social, and motivational dimensions of reading and reading instruction. Engaged readers are viewed as motivated, strategic, knowledgeable, and socially interactive. They read widely for a variety of purposes and capitalize on situations having potential to extend literacy. The book is organized into four sections representing key components of the NRRC research agenda and the engagement perspective. This perspective emphasizes contexts that influence engaged reading. Accordingly, the first section of the volume focuses on the social and cultural contexts of literacy development, with chapters devoted to examining home influences, home-school connections, and the special challenges facing ethnic minorities. The engagement perspective also implies greater attention to the role of motivational and affective dimensions in reading development than traditional views of reading. Therefore, the second section examines motivational theory and its implications.

for reading engagement with special attention to characteristics of classroom contexts that promote motivation in reading. The engagement perspective embraces innovative instructional contexts that address the cognitive, social, and motivational aspects of reading. Thus, the third section includes chapters on current directions in promoting children's learning from text, on the value of an integrated curriculum in promoting reading engagement, and on the challenges of assessing students' development as engaged readers. Finally, the broader conception of reading implied by the engagement perspective requires an expanded array of research approaches sensitive to the complex and interacting contexts in which children develop literacy. The concluding section focuses on these important contemporary issues in literacy research and educational research, with chapters examining the variety of alternative modes of inquiry gaining prominence in literacy research: teacher inquiry and ethical issues of collaboration between university and classroom researchers. Intended for university-based researchers, graduate students, and classroom teachers, this volume brings together researchers who think about students and their literacy development in school and home communities in distinctly different ways. The cooperative and collaborative inquiry presented contributes to a richer understanding of the many factors influencing engaged reading.

Engaging Adolescents in Reading John T. Guthrie, 2007-12-06. A must read for all middle and high school teachers interested in motivating and engaging their students to enhance their reading development and help them enjoy it at the same time. Lesley M. Morrow, Professor of Literacy, Rutgers University. This rich compendium of information offers a solid plan of action for teachers who want to ensure that their students are highly motivated literacy learners. Linda B. Gambrell, Distinguished Professor of Education, Clemson University. Inspire learners' passion for reading. Every day secondary school teachers face the challenge of engaging students in essential reading tasks. This accessible text links key instructional practices with current research on reading motivation, engagement, and classroom context to help reluctant learners become active readers. Featuring contributions from content teachers working in collaboration with reading researcher John T. Guthrie, *Engaging Adolescents in Reading* offers examples that vividly illustrate how motivation looks from the teacher's vantage point and how students can experience deep reading engagement. The writers discuss teaching frameworks, student activities, and textbooks and demonstrate how to use classroom-tested motivational approaches. This insightful book shows educators how to infuse reading assignments with significance and meaning. Present choices that encourage students to take charge of their learning. Tap into adolescents' social natures through group activities. Build proficiency and confidence in struggling readers. With examples from the content areas, these strategies help teachers increase adolescents' engagement with texts and boost their reading enjoyment.
