Social Program Implementation:

Social Program Implementation Walter Williams, Richard F. Elmore, 2014-05-10 Quantitative Studies in Social Relations
Social Program Implementation provides information pertinent to implementation problems in social policy areas This book discusses the greatest difficulty in devising better social programs Organized into five parts encompassing 12 chapters this book begins with an overview of implementation problems in federally funded programs This text then focuses on the social agency where the many bureaucratic problems in multilayered structure clearly illustrate crucial implementation issues Other chapters consider the structure and incentive systems of public schools as they relate to the adoption of innovations and to their implementation in the schools This book discusses as well the idea of planned variation from the perspective of a model sponsor The final chapter deals with crucial impediment to improving complex operating programs policy analysis and experimentation in social policy areas This book is a valuable resource for policy planners administrators and analysts

Researchers engaged in social policy studies will also find this book useful **Social Program Implementation** Liana Marie Champagne, 1981 *The Implementation Perspective* Walter Williams, 2023-07-28 After the big decisions are made in legislatures and executive offices what is done by those who implement and operate social service programs will determine their success or failure Yet over and over again the managers of public organization disregard or handle poorly the critical problems involved in starting and developing new programs or in modifying existing ones This book presents a new decision making rationale the implementation perspective as the basic guide to social service program management The cardinal principle is that the central focus of policy must be at the point of service delivery Here is where management must redirect its attention The demand is to concentrate on the hard dirty time consuming work of building the local delivery capacity needed to provide better social services and to implement new program decisions over time The Implementation Perspective is a message for our times Even those who would continue the nation's effort to meet its social obligations are finding that simply calling for big new programs and more spending is no longer satisfying Moreover Proposition 13 the balanced budget movement inflation and compelling demands for new funds in such areas as energy now squeeze social programs New directions may have to come not from new funds but from rethinking and redirection and more to the point the better management of existing programs After the big decisions are made in legislatures and executive offices what is done by those who implement and operate social service programs will determine their success or failure Yet over and over again the managers of public organization disregard

Funding Public Schools Kenneth K. Wong,1999 This book examines the fundamental role of politics in funding our public schools and fills a conceptual imbalance in the current literature in school finance and educational policy Unlike those who are primarily concerned about cost efficiency Kenneth Wong specifies how resources are allocated for what purposes at different levels of the government In contrast to those who focus on litigation as a way to reduce funding gaps he underscores institutional stalemate and the lack of political will to act as important factors that affect legislative deadlock in school finance reform Wong defines how politics has sustained various types of rules that affect the allocation of resources at the federal state and local level While these rules have been remarkably stable over the past twenty to thirty years they have often worked at cross purposes by fragmenting policy and constraining the education process at schools with the greatest needs Wong s examination is shaped by several questions How do these rules come about What role does politics play in retention of the rules Do the federal state and local governments espouse different policies In what ways do these policies operate at cross purposes How do they affect educational opportunities Do the policies cohere in ways that promote better and more equitable student outcomes Wong concludes that the five types of entrenched rules for resource allocation are rooted in existing governance arrangements and seemingly impervious to partisan shifts interest group pressures and constitutional challenge And because these rules foster policy fragmentation and embody initiatives out of step with the performance based reform agenda of the 1990s the outlook for positive change in public education is uncertain unless fairly radical approaches are employed Wong also analyzes four allocative reform models two based on the assumption that existing political structures are unlikely to change and two that seek to empower actors at the school level The two models for systemwide restructuring aimed at intergovernmental coordination and or integrated governance would seek to clarify responsibilities for public education among federal state and local authorities above all integrating political and educational accountability The other two models identified by Wong shift control from state and district to the school one based on local leadership and the other based on market forces In discussing the guiding principles of the four models Wong takes care to identify both the potential and limitations of each Written with a broad policy audience in mind Wong s book should appeal to professionals interested in the politics of educational reform and to teachers of courses dealing with educational policy and administration and intergovernmental relations

Unfair Housing Mara S. Sidney,2003 It is difficult to ignore the fact that even as the United States becomes much more racially and ethnically diverse our neighborhoods remain largely segregated The 1968 Fair Housing Act and 1977 Community Reinvestment Act promised to end discrimination yet for millions of

Americans housing options remain far removed from the American Dream Why do most neighborhoods in American cities continue to be racially divided The problem suggests Mara Sidney lies with the policies themselves She contends that to understand why discrimination persists we need to understand the political challenges faced by advocacy groups who implement them In *Unfair Housing* she offers a new explanation for the persistent color lines in our cities by showing how weak national policy has silenced and splintered grassroots activists Sidney explains how political compromise among national lawmakers with divergent interests resulted in housing legislation that influenced how community activists defined discrimination what actions they took and which political relationships they cultivated As a result local governments became less likely to include housing discrimination on their agendas existing laws went unenforced and racial segregation continued A former undercover investigator for a fair housing advocacy group Sidney takes readers into the neighborhoods of Minneapolis and Denver to show how federal housing policy actually works She examines how these laws played out in these cities and reveals how they eroded activists capability to force more sweeping reform in housing policy Sidney also shows how activist groups can cultivate community resources to overcome these difficulties looking across levels of government to analyze how national policies interact with local politics In the first book to apply policy design theories of Anne Schneider and Helen Ingram to an empirical case Sidney illuminates overlooked impacts of fair housing and community reinvestment policies and extends their theories to the study of local politics and nonprofit organizations Sidney argues forcefully that understanding the link between national policy and local groups sheds light on our failure to reduce discrimination and segregation As battles over fair housing continue her book helps us understand the shape of the battlefield and the prospects for victory
