## Teaching Functional Language:

**Teaching Functional Language** Steven F. Warren, Ann K. Rogers-Warren, 1985      **Methods of Teaching, Developed from a Functional Standpoint** Werrett Wallace Charters, 1909      **Learning to Teach in an Inclusive Era** Martin Musengi, editor, 2018-10-29

Learning to Teach in an Inclusive Era starts a welcome conversation on educational inclusion. Such a conversation is missing in many developing countries; therefore, this is an important contribution to an emerging field that is still shrouded in uncertainty. Written by diverse lecturers in teacher education, this book is based on several authors' interactions among themselves with student teachers in lecture rooms, in dissertation supervision, and on teaching practice supervision in several African countries. Such interactions revealed the tensions in understanding what inclusion is, and it is these tensions that the book tries to debunk by focusing on teaching methods that can make inclusion possible. The first two chapters are introductory and provide the conceptual framework binding the book together by mapping out context and content. The next seven chapters form the bulk of the book and focus on specific aspects of inclusive education, including individualization, task analysis, peer tutoring, play, multi-sensory approaches, precision, and milieu teaching. Although these chapters use diverse illustrations, the final two chapters focus on two sensory disabilities: hearing and visual impairment. This book addresses inclusive education as one of the most pressing issues facing educators globally. The book provides a platform for critical engagement initiated by emerging African scholars.

*Teaching English: A Survey* Dr. Reena J. Shah, 2023-02-24

In order to present the status of prevailing classroom teaching pedagogies for teaching functional grammar competencies, the researcher carried out the study. There are many research studies carried out on various research components and sample, but there are no research studies on selected research components, sample, and the other variables. This includes the students, teachers, community stakeholders, experts, and the teachers' classroom teaching sessions. The sample is taken from rural and urban areas, and the teachers and students associated with the first and second language teaching and learning are included. Six talukas of Anand district were included. There are 5 self-constructed research tools used to collect the data. The researcher selected various research components such as planning of teaching lessons, use of teaching learning materials, participation in inter-collegiate school events, organizing debate, discussion, and literary events, follow-up, evaluation practices, feedback, and innovative classroom pedagogies and techniques for the classroom teaching.

*Advances in School Psychology (Psychology Revivals)* Thomas R. Kratochwill, Stephen N. Elliott, Maribeth Gettinger, 2015-03-27

Originally published in 1992, this title is the last in a series of books on school psychology. It contains diverse contributions relevant to school psychology research, theory, and practice at the time. Including chapters on alternative intervention strategies for the treatment of communication disorders, strategies for developing a preventive intervention for high-risk transfer children, a review of sociometry and temperament research, a review of the recent advances in research in training behavioral consultants at the time, and an overview of school-based consultation to support students with severe behavior problems in integrated education.
