Strategically Wed Pamela Dalton,2012-07-01 Marry a man she detested Only for a very good reason and a sting operation was the only way Maggie Bennington would consider joining Detective Griff Murdock her late father s former partner in holy matrimony But after the fake wedding to catch the thieves who were robbing wedding parties real bullets started flying The reluctant bride found herself legally married to the now wounded groom sharing a remote cabin in the woods trying to figure out who wanted them dead and who the real target was But the weeks of forced seclusion did nothing to alleviate the growing sexual tension between them as they found the vows to love honour and cherish easy to obey in bed

The Secret Power of Covenant Kerry Kirkwood,2014-01-21 The Secret Power of Covenant Discover God s Blueprint for Living in Protection Prosperity and Power Remember His covenant forever the word which He commanded for a thousand generations 1 Chronicles 16 15 Covenant is not some spiritual idea limited to those who lived in Bible times it is a theme that covers the scope of Scripture and its power is available for your life today Understanding the Secret Power of Covenant will Dramatically change the way you pray from begging like an orphan to receiving from your Father like a son or daughter Unlock and release your covenant inheritance of divine protection prosperity and power to overcome Release God s supernatural restoration in your family as covenant is accessed and practiced For too many Christians God s covenantal blessing is not a lifestyle but a life preserver they cling to during times of crisis need or lack It s time for you to break this cycle experience God s perfect plan for your life and live in His covenant blessing *The Unforgotten Women of the Islamic State* Gina Vale,2024-09-11 The Unforgotten Women of the Islamic State explores the governance of the Islamic State IS terrorist organization through the lives and words of local Iraqi Syrian and Kurdish women While the roles and activities of

foreign predominantly Western pro IS women have garnered significant attention the experiences and insights of local civilian populations have been largely overlooked Drawing on the testimonies of 63 local Sunni Muslim and Yazidi women Gina Vale exposes the group's intra gender stratified system of governance Eligibility for the group's protection security citizenship and entrance into the semi public sphere were not universal but required convergence with the gender norms of IS through permanent erasure or at least temporary disguise of certain markers of difference In some cases this was directed by a pre meditated divide and conquer strategy while in others it manifested as unregulated violences at the hands of individual group members including women The structure follows the trajectory of IS's increasing control over its citizens and captive populations its militarization of society imposition of law and order provision of goods and services and intervention in civilians private lives Analysis of diverse first hand accounts and the group's documentation reveals that the presence exclusion and victimization of local civilian women were necessary to the functioning and legitimation of IS's caliphate project and the supremacy of affiliated men and women As a fledgling proto state IS needed local Iraqi Syrian and Kurdish women Though far from represented or protected they were by no means forgotten *The Politics of Succession* Andrej Kokkonen, Jørgen Møller, Anders Sundell, 2022-07-08 The death of the ruler poses a significant threat to the stability of any polity Arranging for a peaceful and orderly succession has been a formidable challenge in most historical societies and it continues to be a test that modern authoritarian regimes regularly face and often fail Drawing on a unique dataset of the life and fates of monarchs in all major monarchies in Medieval and Early Modern Europe *The Politics of Succession* documents how succession have historically been moments of violence and insecurity Deaths of rulers were often associated with civil war and the shadow cast by looming successions caused coups and depositions But this book also shows that the development and spread of primogeniture the eldest son taking the throne mitigated the problem of succession in Europe in the period after AD 1000 The predictability and stability that followed from a clear hereditary principle outweighed the problems of incompetent and irrational rulers sometimes inheriting power The data used in the book demonstrates that primogeniture reduced the risk of depositions and civil war following the inevitable deaths of leaders In this way hereditary monarchy helped create political stability and lengthen the time horizons of rulers and elites alike thereby facilitating state building The book thus sheds light on the rationale of a system of leader selection that today often appears illogical and outdated and it uses these findings to shed light on the key advantage of modern representative democracy its ability to complete power transfers peacefully **Forging Communities in Colonial Alta California** Kathleen L. Hull, John G. Douglass, 2018-10-16 Between 1769 and 1834 an influx of Spanish Russian and then American colonists streamed into Alta California seeking new opportunities Their arrival brought the imposition of foreign beliefs practices and constraints on Indigenous peoples *Forging Communities in Colonial Alta California* reorients understandings of this dynamic period which challenged both Native and non Native people to reimagine communities not only in different places and spaces but also in

novel forms and practices The contributors draw on archaeological and historical archival sources to analyze the generative processes and nature of communities of belonging in the face of rapid demographic change and perceived or enforced difference Contributors provide important historical background on the effects that colonialism missions and lives lived beyond mission walls had on Indigenous settlement marriage patterns trade and interactions They also show the agency with which Indigenous peoples make their own decisions as they construct and reconstruct their communities With nine different case studies and an insightful epilogue this book offers analyses that can be applied broadly across the Americas deepening our understanding of colonialism and community Contributors Julienne Bernard James F Brooks John Dietler Stella D Oro John G Douglass John Ellison Glenn Farris Heather Gibson Kathleen L Hull Linda Hylkema John R Johnson Kent G Lightfoot Lee M Panich Sarah Peelo Seetha N Reddy David W Robinson Tsim D Schneider Christina Spellman Benjamin Vargas

The Borders of Privilege Kara Cebulko,2025-01-07 Because whiteness is not a given for Brazilians in the U S some immigrants actively construct it as a protective mechanism against the stigma normally associated with illegality In The Borders of Privilege Kara Cebulko tells the stories of a group of 1 5 generation Brazilians to show how their ability to be perceived as white their power without papers shapes their everyday interactions By strategically creating boundaries with other racialized groups these immigrants navigate life course rituals like college work and marriage without legal documentation Few identify as white in the U S even as they benefit from the privileges of whiteness The legal exclusion they feel as undocumented immigrants from Latin America makes them feel a world apart from their white citizen peers However their constructed whiteness benefits them when it comes to interactions with law enforcement and professional advancement challenging narratives that frame legality as a master status Understanding these experiences requires us to explore interlocking systems of power including white supremacy and capitalism as well as global histories of domination Cebulko traces the experiences of her interviewees across various stages of life applying a power without paper lens and making the case for integrating this perspective into future scholarship collective broad based movements for social justice and public policy
