## Strategy Of Nonviolent Defense:

**The Strategy of Nonviolent Defense** Robert J. Burrowes, 2015-10-26 Because of the way in which the history of nonviolence has been marginalized relatively few people have a sense of the rich history of nonviolent struggle or realize that it can be systematically planned and applied Nevertheless the historical record illustrates that nonviolent struggle is a powerful form of political action But can it be effective against military aggression The Strategy of Nonviolent Defense answers this question in the affirmative by first defining the notion of social cosmology the four mutually reinforcing features that determine the character of any society It then devotes attention to strategies for dealing with conflict in particular to developing a strategic theory and framework for planning a strategy of nonviolent defense In order to develop this theory Burrowes synthesizes insights drawn from the strategic theory of Carl von Clausewitz the nonviolence of Mahatma Gandhi and recent human needs and conflict theory

*National Conference as a Strategy for Conflict Transformation and Peacemaking* Jacques L. Koko, 2008 Since the end of the Cold War Africa has witnessed a political rebirth and second liberation as decades of autocracy and dictatorship became gradually replaced by a new wave of democratization and plural political competition This political rebirth has revived the Afro optimism that accompanied the independence decade of the 1960s This optimism however co exists with protracted and deadly conflicts in many parts of the continent from wars in Rwanda Democratic Republic of Congo and Somalia to stalemate in democratic reform in Niger Guinea and Cameroon and democratic retraction in Uganda Additionally Africa faces many problems including wars famine refugees internal displacement and a host of diseases such as HIV AIDS Similarly despite the adoption of constitutions that guarantee the basic human rights and freedoms by many African states human rights violations remain rampant throughout the continent s political landscape

**Democracy and Culture An African Perspective** is an analysis of the democracy project in Africa Basically the contributors seek answers to a number of fundamental questions How is democracy to be defined in the African context Is the Western style democracy which is being adopted in many parts of Africa culturally and environmentally neutral Can it really be replicated in Africa And what is the role of African culture in the current democracy project

Portuguese Studies Review, 2003

Nonviolence Speaks Brian Martin, Wendy Varney, 2003 This book addresses the power of popular nonviolent action against repression aggression and oppression A crucial aspect to effective nonviolent action is communication Activists need to be able to contact each other and to mobilize support from other parts of the world However within the nonviolence literature communication has been almost entirely neglected while within the communication literature nonviolent action is seldom mentioned This is the first major study to focus on the joint dynamics of nonviolence and communication Three case studies are examined the popular action that forced the resignation

of Indonesian President Suharto in 1998 the successful people's resistance to the Soviet coup in 1991 and the successful internationally coordinated campaign against the Multilateral Agreement on Investment in 1988 In each case special attention is given to the role of communication in the struggle Attention is then turned to theory Surveys are made of nonviolence and communication theories probing for insights relevant to the nonviolence communication nexus Gradually a model for analyzing people's communication is developed The insights from theory are then used to propose a set of steps by which activist groups can analyze communication and develop effective communication strategies
