Can Tax Policy Be Used to Stimulate Economic Development? Richard D. Pomp, 2017 These remarks were prepared for the Multistate Tax Commission's State and Local Business Tax Symposium at American University The panel addressed the pressure on state and local officials to adopt tax incentives to prevent businesses from leaving their jurisdiction or to attract new business The panel questions whether firms actually choose their location based on state and local taxation or whether tax incentives are simply a result of political pressure Further issues raised were the effect of property taxation on the price of land and whether revenue forgone by tax incentives is proportional to the benefits received Equity concerns are also addressed such as whether tax incentives to new businesses unfairly prejudice existing businesses in the same jurisdiction A final question considered was whether tax incentives are a type of government spending equal to the amount of taxes that would have been collected absent the incentives that is whether they should be viewed as tax expenditures

Murray,Margaret Chase Smith Center for Public Policy,2002 **Tax Policy for Economic Recovery and Sustainable Development After COVID-19** Tetiana Kaneva,Igor Chugunov,Mykola Pasichnyi,Nikitishin Andriy,Nataliia Husarevych,2022 The optimal taxation level and tax structure depend on numerous factors and enormously differ from country to country However the two mentioned tax policy instruments could ensure economic recovery and sustainable economic growth This article aims to examine the effects of tax policy on economic development and evaluate the role of appropriate tax instruments in speeding up recovery The results showed that tax level harms the GDP per capita growth rate in Central Europe and Baltic states over the 2000 2021 period Another vital finding is the increase in both overall employment and investment to GDP ratio positively affected the real GDP per capita growth rates In order to foster economic growth government might use tax cuts and other stimuli both for distortionary and non distortionary taxes The tax policy's institutional potential should be improved to neutralize the adverse effects of COVID 19 impact and enhance macroeconomic sustainability **The Economics of Tax Policy** Alan J.
