Writing for Impact Tom Nicholson, Susan Dymock, 2018-09

Teaching students to write for impact sets them up for success across many curriculum areas. Volume 1 explains how to teach students to manage ideas and to master the elements of presentation with an emphasis on correct spelling. The first half of vol 1 focuses on ideas. Tom and Sue explain how teachers can support students to generate and organise ideas and develop plans for their writing. They suggest two approaches: the Read Write approach and the self-regulated strategy development approach. Both teach the writer to connect with the reader and to convey ideas in an organised way. Fiction, non-fiction, and text to persuade are each covered separately with templates to help students plan and structure their work. The second half of vol 1 focuses on presentation. It covers punctuation, grammar, vocabulary, and handwriting with an emphasis on spelling. Nicholson and Dymock reject the idea of memorising word lists; instead, they use the layers of Anglo-Saxon, Romance, French, and Latin and Greek influences to show the structure and logic of English spelling. Volume 2 shows teachers how to use the research and strategies in the classroom. It includes lesson plans covering the Big 10 spelling rules, as well as Latin and Greek words. The book is also supported by 15 short video lessons showing how to teach writing based on the authors' research.

Teaching Adolescent Writers Kelly Gallagher, 2023-10-10

In an increasingly demanding world of literacy, it has become critical that students know how to write effectively. From the requirements of standardized tests to those of the wired workplace, the ability to write well, once a luxury, has become a necessity. Many students are leaving school without the necessary writing practice and skills needed to compete in a complex and fast-moving Information Age. Unless we teach them how to run with it, they are in danger of being run over by a stampede—a literacy stampede.

In *Teaching Adolescent Writers*, Kelly Gallagher shows how students can be taught to write effectively. Gallagher shares a number of classroom-tested strategies that enable teachers to understand the importance of teaching writing and how to motivate young writers. Show how modeling from both the teacher and real-world texts builds young writers. Provide choice of what to write, which helps elevate adolescent writing and how to fit it into a rigorous curriculum. Help students recognize the importance of purpose and audience. Assess essays in ways that drive better writing performance. Infused with humor and illuminating anecdotes, Gallagher draws on his classroom experiences and work as co-director of a regional writing project to offer teachers both practical ways to incorporate writing instruction into their day and compelling reasons to do so.

Write from the Start Robin M. Bright, 2002 From the award winning author of From Your Child's Teacher comes this

excellent teacher's resource for helping primary students begin to write their stories. This resource includes strategies for organizing and developing writers' workshops, samples that illustrate various levels of writing, strategies for conferencing with young students, information on the role of editing, assessment ideas, many practical reproducible, detailed writing activity lessons. Writing is Dialogue Jeff House, 2006. Why do our students write backwards? Fed a limited diet of five paragraph academic essays, students produce what they're taught: formulaic, dry work. Too many writing programs teach counter-intuitively, forcing students to utilize improbable methods as unnatural as they are limiting. The inductive approach to composition that Writing is Dialogue teaches encourages students to follow the natural gathering and organizing actions of the brain, breaking the process down into clear steps. The book also stresses the need for varied writing programs incorporating a range of personal essays as well as persuasive, expository, journalistic, and creative writing. Filled with student samples, Writing is Dialogue argues that students can write naturally and with focus to produce compelling work.
