Teaching Technologies In Libraries

Sondra Cuban, Larry Cuban

Teaching Technologies In Libraries:

Teaching Technology in Libraries Carol Smallwood, Lura Sanborn, 2017-01-12 Libraries are charged with fostering new skills and capabilities a challenging task in an era of rapid technological change Developing new ways of teaching and learning within budget and time constraints is the key to keeping up to date Written by librarians this collection of new essays describes an array of technology outreach and instruction programs from the theoretical to the practical for public academic and school libraries based on case studies and discussions of methodology Content includes out of the box lessons outreach successes and technology instruction programs applicable to patrons and staff at public academic and school libraries

Teaching Technologies in Libraries Linda Brew MacDonald, 1990 **Gateways to Knowledge** Lawrence Dowler, 1997 Proponents of the gateway concept which ties together these fifteen essays by scholars librarians and academic administrators envision the library as a point of access to other research resources via technological tools as a place for teaching and as a site for services and support where students and faculty can obtain the information they need in the form in which they need it

Technology and the School Library Odin L. Jurkowski, 2024 This book explores technology in K 12 schools and libraries covering information tools resources librarian classroom collaboration technology administration and pedagogical integration Tailored for educators and librarians it provides a concise yet comprehensive underst *Teaching with Technology* Joe Williams, Susan Goodwin, 2007-07-31 This practical book introduces readers to the current technology topics and issues facing today s academic instruction and reference librarians The book provides up to date overviews of cutting edge technologies offers an insight on current educational uses and applications of these new tools and discusses common problems and pitfalls librarians may encounter when incorporating current technologies into their instruction services Chapters are written by experienced practitioners providing detailed information on best practices and common pitfalls using today s technologies Topics include teaching with streaming video chat based virtual reference services wireless networking weblogs and course management software Describes concrete applications of technology for today s academic library instruction programs Discusses the academic librarian s role as both educator and technology innovator Evaluates new technologies from an instructional rather than a reference or access services viewpoint

Partners in Literacy Sondra Cuban, Larry Cuban, 2007 Why have libraries and schools both public institutions committed to community based learning adopted new technologies in dramatically different ways Exploring the differences in technology use between schools and libraries across the country the authors describe ways that these two institutions can collaborate to improve teaching and learning while building communities With a focus on literacy development they investigate how new technologies are implemented and the lessons that institutions can learn from one another Including case studies and surveys to illustrate concepts the book discusses The history and purposes of schools and libraries from the 1800s to the present Leadership and staffing issues related to technology development Differences in mission structural approaches to

literacy and public expectations for schools and libraries The uses of technology in both institutions to create stronger communities *Advancing Library Education: Technological Innovation and Instructional Design* Sigal, Ari,2013-06-30 As learning moves into a more innovative and technological environment it becomes increasingly important that library education continues to adapt and understand the resources that are available *Advancing Library Education Technological Innovation and Instructional Design* aims to provide relevant theoretical frameworks empirical research and new understandings for those interested in Library and Information Science and the impact new techniques and technologies are having in this area Librarians academics and researchers will benefit from this careful look into current advancements in their field *Emerging Library Technologies* Ida Arlene Joiner,2018-08-16 *Emerging Library Technologies* is written for librarians information professionals teachers administrators researchers undergraduate graduate students and others who are interested in learning about some of the most popular emerging technologies in the media today such as artificial intelligence robotics drones driverless vehicles big data virtual augmented reality 3D printing and wearable technologies This valuable resource shows how they can be used in libraries and resource centers and how to get stakeholder buy in for implementing these technologies *Technology for the School Librarian* William O. Scheeren,2010-01-22 The world of the school librarian has changed significantly over the past ten years with the proliferation of technology into all phases of education this book attempts to address these issues What does a school librarian need to know about technology *Technology for the School Librarian Theory and Practice* is an introduction to all aspects of technology in the school library and provides a starting point for further study of this wide ranging and critically important field The only book that addresses both the theoretical and the practical aspects of the subject *Technology for the School Librarian* is organized into 13 chapters describing the most vital topics in technology for school librarians Within these chapters school librarians whether practicing or prospective will be introduced to the practical aspects of technology in the school library and presented with a theoretical framework that will allow them to continue their research and learning Case studies facilitate understanding as do the study questions included with each chapter *New Methods of Teaching and Learning in Libraries* Ann Whitney Gleason,2016-10-20 *New Methods of Teaching and Learning in Libraries* is a one stop introduction to the role of technology in teaching and learning in libraries Emerging models of library instruction and library support of instruction will be presented Increasingly librarians are called upon to partner with educational faculty and community members to deliver content and support innovative educational initiatives Since libraries reach across academic disciplines and provide resources for the greater community they are uniquely positioned to provide services and technologies that are available to many bringing innovation out of silos and facilitating innovation in the community Chapters covered include Active Learning in Collaborative Spaces Creating Library Spaces that Foster Creation Teaching Beyond the Library Walls Teaching Skills for Career Success Multimedia in Library Education The Future of Mobile Libraries Teaching and Learning in the Library of the

Future Innovative programs will be highlighted and practical examples will be provided

Innovations in Science and Technology Libraries Rita Pellen, William Miller, 2014-06-17 Catch up with the many innovations now affecting sci tech libraries The twenty four chapters in *Innovations in Science and Technology Libraries* discuss the creation of digital collections e repositories personalized Web environments and discipline specific Web sites for students and researchers The book also explores the use of new technologies to improve document delivery and service provision as well as demonstrations of leadership by science librarians who are willing to take risks adapt to change control costs and collaborate with colleagues Here is just a fraction of the fascinating cases and important concepts highlighted in *Innovations in Science and Technology Libraries* the Drexel University Library's transition from print to an electronic only journal collection the benefits of adopting a just in time purchase on demand rather than a just in case acquisitions policy IntelliDochow it has raised the standard for document delivery worldwide and increased international recognition of CISTI how California State University Sacramento merged its science library into its central reference department an examination of the two year merging process the creation of branch libraries focused on electronic information an engineering library at Kansas State University and an agriculture library at the University of Manitoba the impact of electronic information upon undergraduate science education literacy competencies in the sciences and their implications for library instruction how the MIT libraries created and developed the Reference Vision system that now guides all of their new reference services the impact of learning communities upon library services recent additions that enhance the usefulness of the IEEE Xplore online delivery system *Innovations in Science and Technology Libraries* will bring you up to date on the latest developments sharpen your awareness of new concepts and techniques in sci tech librarianship and help your library stay abreast of important changes in this ever evolving field Make it a part of your professional reference collection today
