*Forex Trading Ideas* Mazlan Abang, 2016-07-05 As many are well aware the currency market widely known as forex offers a very lucrative form of direct as well as indirect extrinsic and intrinsic values in the world of business and investment market However perception and reaction towards currency market vary significantly to a certain degree among people of different communities This is very much correlated to variations in socioeconomic background culture or might as well tradition There are people who are heavily acquainted with the market Some are partially involved and some are still in the middle of making decisions while others are totally ignoring it I believe this is because of a number

of factors that lie behind the scenario such as the following unclear information about the features of the market positively or negatively driven values from words of mouth have no access to such information absence of any stimulating element to initiate the thinking efforts Such factors lead to the variations of what people think about the currency trading I also strongly believe that there are more scary types or disincentive flow of information to the larger portion of the community due to the fact that only about 10 to 15% of the traders who actually consistently can go along and earn in forex trading whereas 85% to 90% are still struggling to cope with the market Without doubt many of them failed and thus could possibly pose as a bad model in this venture to many others that remained outside the horizon The breed of the mouth of such kind can be easily absorbed by many and make them still indecisive or not able to ascertain themselves to put some effort to explore more about the currency market Whatever are the perception and thought about the currency market for sure many still have one thing in common that is to strive toward financial freedom and well being It cannot be far wrong if I were to say that nowadays better life could also imply to be having sufficient financial backup whether for the living standard upgrading or sustainability purposes It has been known that the lack of such important ingredient in our daily life could make us even more stressful and desperate The greater the financial difficulties we are facing the more we need for anything that could lead us to fast and easy money ventures This has unavoidably made us lose balance in making proper decisions and made us less considerate Keep in mind that a wrong move especially during unfavorable mode such as desperate could drag us even much further down This scenario gives more ways for scammers to come into ones life and the operators are good enough to read every single aspect in between the lines of the needy and desperate fellow The truth is theres no such reliable and legitimate and easy and fast money game platform for the general public to chip in Everything comes with its own value and costing But what currency market can offer very much depends on the traders One can tell it is a platform for legitimate fast money earning but not easy But with proper care traders can make it as a reliable source of income
