

Demigods and other confirmed beings of pantheons in the Riordanverse

*Yoruban demigods are confirmed to exist

Greek demigods:

The offspring of a Greek deity and a mortal. Monsters hunt them when they come of age, and often kill them before they can get to Camp-Halfblood. Usually have superhuman abilities, dyslexia, and ADHD. Unlike Roman demigods, they can read Ancient Greek.

Roman demigods:

The offspring of a Roman deity and a mortal. They can live longer than Greek demigods and start families. Usually have superhuman abilities, dyslexia, and ADHD. Unlike Greek demigods, they can read Latin.

Norse demigods:

The offspring of a Norse deity and a mortal. Unlike Greco-Roman demigods, they do not have ADHD or dyslexia. Instead, they are usually homeless and end up on the street hallucinating. They get their divine parentage revealed to them in Valhalla, and become warriors for Odin. Most Norse demigods have to die to gain access to their mythological world.

Egyptian magicians:

Since Egyptian deities can only stay in the mortal world with a human host, they are unable to physically reproduce with a mortal to have demigod offspring. Hence, magicians are the closest equivalent of a demigod in the Egyptian pantheon. Meaning, they can host a god's power. They are usually trained in nomes around the world, and have many versatile magical abilities compared to demigods, but they can burn up from using too much magic.
