*Consciousness* David Bennett,Christopher Hill,2014-10-24 Philosophers and cognitive scientists address the relationships  
among the senses and the connections between conscious experiences that form unified wholes In this volume cognitive  
scientists and philosophers examine two closely related aspects of mind and mental functioning the relationships among the  
various senses and the links that connect different conscious experiences to form unified wholes The contributors address a  
range of questions concerning how information from one sense influences the processing of information from the other  
senses and how unified states of consciousness emerge from the bonds that tie conscious experiences together Sensory  
Integration and the Unity of Consciousness is the first book to address both of these topics integrating scientific and  
philosophical concerns A flood of recent work in both philosophy and perception science has challenged traditional  
conceptions of the sensory systems as operating in isolation Contributors to the volume consider the ways in which  
perceptual contact with the world is or may be multisensory discussing such subjects as the modeling of multisensory  
integration and philosophical aspects of sensory modalities Recent years have seen a similar surge of interest in unity of  
consciousness Contributors explore a range of questions on this topic including the nature of that unity the degree to which  
conscious experiences are unified and the relationship between unified consciousness and the self Contributors Tim Bayne
