Our Kentucky James C. Klotter,1992 The South has always been one of the most distinctive regions of the United States with its own set of traditions and a turbulent history Although often associated with cotton hearty food and rich dialects the South is also noted for its strong sense of religion which has significantly shaped its history Dramatic political social and economic events have often shaped the development of southern religion making the nuanced dissection of the religious history of the region a difficult undertaking For instance segregation and the subsequent civil rights movement profoundly affected churches in the South as they sought to mesh the tenets of their faith with the prevailing culture Editors Walter H Conser and Rodger M Payne and the book s contributors place their work firmly in the trend of modern studies of southern religion that analyze cultural changes to gain a better understanding of religion s place in southern culture now and in the future

*Southern Crossroads Perspectives on Religion and Culture* takes a broad interdisciplinary approach that explores the intersection of religion and various aspects of southern life The volume is organized into three sections such as Religious Aspects of Southern Culture that deal with a variety of topics including food art literature violence ritual shrines music and interactions among religious groups The authors survey many combinations of religion and culture with discussions ranging from the effect of Elvis Presley s music on southern spirituality to yard shrines in Miami to the archaeological record of African American slave religion The book explores the experiences of immigrant religious groups in the South also dealing with the reactions of native southerners to the groups arriving in the region The authors discuss the emergence of religious and cultural acceptance as well as some of the apparent resistance to this development as they explore the experiences of Buddhist Americans in the South and Jewish foodways

*Southern Crossroads* also looks at distinct markers of religious identity and the role they play in gender politics ritual and violence The authors address issues such as the role of women in Southern Baptist churches and the religious overtones of lynching with its themes of blood sacrifice and atonement

*Southern Crossroads* offers valuable insights into how southern religion is studied and how people and congregations evolve and adapt in an age of constant cultural change

**The Kentucky Anthology** Wade Hall,2005-11-11 For over two hundred years Kentucky has inspired many of the nation s finest writers both natives of the Bluegrass State and outsiders who were entranced by its rich natural wonders and culture This book assembles a collection of writings embodying the hopes concerns and aspirations that have made the state unique and yet typically American

*Jesse Stuart On Education* J.R. LeMaster,2021-12-14 Could a man who never earned a master s degree tell the

nation s teachers and administrators how to run their schools Jesse Stuart who had a life long love of education did just that From Stuart s autobiographical works J R LeMaster has chosen selections that demonstrate his philosophy of learning and teaching and his philosophy of life The selections establish a loose chronology of events in Stuart s lifelong education and describe his experience as preschooler student teacher and school administrator This multiple perspective LeMaster suggests is essential to understanding the process we call education a process Jesse Stuart located in nature believing that human beings are first and foremost natural beings and only incidentally cultural beings That is while we belong to an order of human beings we also belong to a larger order a universe of living things In his general introduction LeMaster discusses Stuart s life and philosophy providing the reader with a backdrop against which to study selections from *Beyond Dark Hills* *The Thread That Runs So True* *The Year of My Rebirth* *God s Oddling* *Mr Gallion s School* *To Teach To Love* and other Stuart works Each excerpt is illumined by LeMaster s discussion of its place in Stuart s philosophy of education Those concerned with the apparent breakdown of the American educational system will find much to consider in LeMaster s discussion of the implications of Stuart s views on education He contends that the present crisis in our schools stems from an inadequate philosophy for living and that Jesse Stuart who believed education was a natural development knew as much all along

**National Magazine ...** ,1903      **The Thread That Runs So True** Jesse Stuart,1958      **Dialect Notes** ,1912

Games and songs of American children, collected and compared by W.W. Newell American children,1883      *Appalachia*

*Inside Out: Conflict and change* Robert J. Higgs,Ambrose N. Manning,Jim Wayne Miller,1995 These two volumes constitute the most comprehensive anthology of writings on Appalachia ever assembled Representing the work of approximately two hundred authors fiction writers poets scholars in disciplines such as history literary criticism and sociology *Appalachia Inside Out* reveals the fascinating diversity of the region and lays to rest many of the reductive stereotypes long associated with it Intended as a sequel to the widely respected collection *Voices of the Hills* published twenty years ago these volumes reflect the recent proliferation of imaginative and critical writing about Appalachia a proliferation that suggests nothing less than a renaissance of collective self assessment The selections are organized around a variety of themes including War and Revolution Feuds and Violence Nature and Progress Dialect and Language Exile Return and Sense of Place and Majority and Minority and reveal both the radical changes the region has undergone as well as the persistence of certain defining features The title *Appalachia Inside Out* refers in part to the fact that Appalachia has never existed in timeless isolation from the rest of country and the world rather it has both absorbed outside influences and exerted influence of its own The title also indicates the editors effort to look not only at the visible Appalachia but at the forces that underlie its history and culture What emerges in these pages is an Appalachia both familiar and strange a mirror of lived life on the one hand and on the other a haunted realm of unimaginable loss and bewitching possibility
