Introduction Wen W. Fong, Alfreda Murck, 1991* **The Pictured Word** Martin Heusser, 1998

Art's Emotions Damien Freeman, 2014-09-03 Despite the very obvious differences between looking at Manet's *Woman with a Parrot* and listening to Elgar's *Cello Concerto* both experiences provoke similar questions in the thoughtful aesthete why does the painting seem to express reverie and the music nostalgia How do we experience the reverie and nostalgia in such works of art Why do we find these experiences rewarding in similar ways As our awareness of emotion in art and our engagement with art's emotions can make such a special contribution to our life it is timely for a philosopher to seek to account for the nature and significance of the experience of art's emotions Damien Freeman develops a new theory of emotion that is suitable for resolving key questions in aesthetics He then reviews and evaluates three existing approaches to artistic expression and proposes a new approach to the emotional experience of art that draws on the strengths of the existing approaches Finally he seeks to establish the ethical significance of this emotional experience of art for human flourishing Freeman challenges the reader not only to consider how art engages with emotion but how we should connect up our answers to questions concerning the nature and value of the experiences offered by works of art
