Giberson, Donald A. Yerxa, 2002-10-09 In Species of Origins Karl W Giberson and Donald A Yerxa examine America's controversial conversation about creation and evolution While noting that part of the discord stems from the growing cultural and religious diversity of the United States they argue powerfully that the real issue is the headlong confrontation between two seemingly incompatible worldviews upon which millions of Americans rely modern naturalistic science and traditional Judeo Christian religions *Four Views on Heaven* Zondervan, 2022-01-18 Discover and understand the different Christian views of what heaven will be like Christians from a variety of denominations and traditions are in middle of an important conversation about the final destiny of the saved Scholars such as N T Wright and J Richard Middleton have pushed back against the traditional view of heaven and now some Christians are pushing back against them for fear that talk about the earthiness of our final hope distracts our attention from Jesus In the familiar Counterpoints format Four Views on Heaven brings together a well rounded discussion and highlights similarities and differences of the current views on heaven Each author presents their strongest biblical case for their position followed by responses and a rejoinder that model a respectful tone Positions and contributors include Traditional Heaven our destiny is to leave earth and live forever in heaven where we will rest worship and serve God John S Feinberg Restored Earth emphasizes that the saved will live forever with Jesus on this restored planet enjoying ordinary human

activities in our redeemed state J Richard Middleton Heavenly Earth a balanced view that seeks to highlight both the strengths and weaknesses of the heavenly and earthly views Michael Allen Roman Catholic Beatific Vision stresses the intellectual component of salvation though it encompasses the whole of human experience of joy happiness coming from seeing God finally face to face Peter Kreeft The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair minded and respectful of the biblical text Each volume is a one stop reference that allows readers to evaluate the different positions on a specific issue and form their own educated opinion

**Laying Down Arms to Heal the Creation-Evolution Divide** Gary N. Fugle,2015-01-01 Battles over creation or evolution have been perpetuated for years by vocal Christians and scientists alike But conflict has never been the only choice Laying Down Arms to Heal the Creation Evolution Divide presents a comprehensive uplifting alternative that brings together an orthodox biblical view of a sovereign Creator God and the meaningful discoveries of modern evolutionary biology Gary Fugle offers unique insights into this debate from his dual perspective as both an award winning biology professor and a committed leader in conservative evangelical churches In focusing on the stumbling blocks that surround creation and evolution debates Fugle sensitively addresses the concerns of skeptical Christians and demonstrates how believers may celebrate evolution as a remarkable aspect of God s glory He describes how the mainstream scientific community as well as numerous Christians may alter current approaches to eliminate conflicts He explains conservative readings of early Genesis that respect both the inerrant words of Scripture and the evolutionary revelations in God s natural creation This book is for individuals who sense that biblical Christian faith and evolution are compatible without compromising core convictions If given good reasons to do so are we willing to lay down our arms to affirm an encompassing vision for the future

**Understanding Scientific Theories of Origins** Robert C. Bishop,Larry L. Funck,Stephen O. Moshier,John H. Walton,Raymond J. Lewis,2018-12-04 From five authors with over two decades of experience teaching origins together in the classroom this is the first textbook to offer a full fledged discussion of the scientific narrative of origins from the Big Bang through humankind from biblical and theological perspectives This work gives the reader a detailed picture of mainstream scientific theories of origins along with how they fit into the story of God s creative and redemptive action **A Science of the Ultimate** Jay G. Rodger,1908 **Evolution; its nature, its evidences, and its relation to religious** Joseph Le Conte,1891 **Bruce and Stan's Guide to How It All Began** Bruce Bickel,Stan Jantz,2001 How we answer that important question determines a lot about our values and beliefs about life Bruce and Stan will help you think clearly and critically about the facts and opinions of science and how they affect our understanding of the Bible **The Dial** Francis Fisher Browne,1892 *Perspectives on Science and Christian Faith* ,2007 **Evolution** ,1927 **A Religious Journal of the School of Theology** ,2004 *The New Philosophy* ,1910 **Is Moses Scientific?** Peter E. Kipp,1893 **A Molinist-Anabaptist Systematic Theology** Kirk R. MacGregor,2007-08-31 As the first systematic theology of its kind the

ecumenical construction synthesizes the strengths of what are typically considered two disparate branches of Christianity namely Roman Catholicism and Anabaptism Focusing on the celebrated Jesuit neo Scholastic theologian Luis de Molina 1535 1600 and the evangelical peace communities from the early modern period onward this system integrates the best in Catholic philosophical theology with the best historical implementations of the Free Church ecclesiological tradition In doing so this progressive doctrinal edifice furnishes provocative new answers to perennial quandaries Included in this discussion are the polarity between sovereign predestination and libertarian freedom the interaction between omniscience and God s changing his mind and the existence of gratuitous evil This system breaks ground in the realm of practical theology by proposing an antithetical relationship between church discipline and the sacraments While avoiding the either or debate between egalitarianism and complementarianism this theology demonstrates exegetically that women should not be restricted from holding any leadership position within the church Drawing together these dialectical and Scriptural threads this book advocates a social ethic that exhorts Christians to display extreme reluctance on matters of war and to exercise discernment toward political agendas by measuring them against the Sermon on the Mount
