The Unlikely Chaperone Dorothy Mack, 1991-02 *Seduction Wears Sapphires* Renee Bernard, 2010-08-03 New in the Jaded Gentlemen series When Ashe Blackwell's grandfather challenges him to reform for a single social Season in London or forfeit his inheritance the rake agrees to the wager But Ashe is assigned an unconventional chaperone Miss Caroline Townsend a young independent well educated American woman with beautiful eyes and no patience for rogues *The Sheltered City* John Tristan, 2014-07-07 Amon Vraja last of the halfdead tries to stay out of sight His kind twisted by the gift that grants them superhuman strength are loathed and shunned Under the enchanted leaves of the Last City ruled by imperious elves whose love of beauty leaves little room for his ugliness he's not much more than the ghost of a dragon haunted past When the young headstrong elf lord Caedian takes an interest in Amon however Amon's days in the shadows may be over Caedian needs Amon to find Caedian's missing twin and a halfdead brothel guard can't just refuse an elf's desires Throughout the search Caedian and Amon rely on each other's strength and generosity and Amon is struck by an impossible yearning for his elvish patron As they peel away layers of deceit and spiral closer to one another they also near the horrifying truth of the elves protection And when they discover it they'll face a choice step outside the shelter of the world's last city or die where they stand 90 000 words *The Uninvited Guests* Sadie Jones, 2012-05-01 The opening pages read like an episode of Downton Abbey But Jones has something more uncanny in mind and when the party is interrupted by survivors of a nearby train wreck the comedy of manners turns downright surreal Jones's effervescent writing keeps the course steady even as her characters shed their civilized veneers Ellen Shapiro People magazine four star review A grand old manor house deep in the English countryside will open its doors to reveal the story of an unexpectedly dramatic day in the life of one eccentric rather dysfunctional and entirely unforgettable family Set in the early years of the twentieth century award winning author Sadie Jones's *The Uninvited Guests* is in the words of Jacqueline Winspear the New York Times bestselling author of the Maisie Dobbs mysteries *A Lesson in Secrets and Elegy for Eddie* a sinister tragic comedy of errors in which the dark underbelly of human nature is revealed in true Shakespearean fashion **City Girl, Country Girl** Liz Harfull, 2016-03-23 I'm sitting down to write the opening lines of this book a year to the day since my mum died She is constantly in my thoughts not just because I miss her terribly but because she was the inspiration for this collection of stories about women who have come from very different places to make a new life in rural Australia *City Girl Country Girl* brings together the stories of women who have left lives in the city or another country to build a new future in places where knowing how to milk a cow or drive a tractor stand them in far better stead than an ability to negotiate rush hour traffic or find a good cappuccino It ranges in scope from the classic outback story of Sarah Durack in the late 1800s to the author's own mother's experiences of swapping wartime Melbourne for a dairy farm on the Limestone Coast to the present day *City Girl Country Girl* is a compelling and fascinating account of these women's journeys as they struggle through personal
