Exploring C++ 11 Ray Lischner,2014-02-28 Exploring C divides C up into bite sized chunks that will help you learn the language one step at a time Assuming no familiarity with C or any other C based language you ll be taught everything you need to know in a logical progression of small lessons that you can work through as quickly or as slowly as you need C can be a complicated language Writing even the most straight forward of programs requires you to understand many disparate aspects of the language and how they interact with one another C doesn t lend itself to neat compartmentalization the way other languages do Rather than baffle you with complex chapters explaining functions classes and statements in isolation we

It focus on teaching you how to achieve results By learning a little bit of this and a little of that you ll soon have amassed enough knowledge to be writing non trivial programs and will have built a solid foundation of experience that puts those previously baffling concepts into context In this fully revised second edition of Exploring C you ll learn how to use the standard library early in the book Next you ll learn to work with operators objects and data sources in increasingly realistic situations Finally you ll start putting the pieces together to create sophisticated programs of your own design confident that you ve built a firm base of experience from which to grow

Exploring C++ Ray Lischner,2009-02-07 Exploring C uses a series of self directed lessons to divide C into bite sized chunks that you can digest as rapidly as you can swallow them The book assumes only a basic understanding of fundamental programming concepts variables functions expressions statements and requires no prior knowledge of C or any other particular language It reduces the usually considerable complexity of C The included lessons allow you to learn by doing as a participant of an interactive education session You ll master each step in one sitting before you proceed to the next Author Ray Lischner has designed questions to promote learning new material And by responding to questions throughout the text you ll be engaged every step of the way
