Turtles in My Sandbox Jennifer Keats Curtis,2006-01-01 When a mother diamondback terrapin lays eggs in a young girl's sandbox the girl becomes a turtle sitter to help the babies safely hatch and in the process she learns about these unique animals and their struggle for survival The Biology and Population Status of Marine Turtles in the North Pacific Ocean Karen L. Eckert,1993 Sea Turtles in Danger Michael Portman,2011-08-01 Presents general information about the seven species of sea turtles the dangers that they face that threaten their survival as a species and the work that is done to protect them *Status of Marine Turtles in the Pacific Ocean Relevant to Incidental Take in the Hawaii-based Pelagic Longline Fishery*,1996 Turtles in Your Pocket Terry VanDeWalle,Suzanne L. Collins,2011-11-01 From the hefty alligator snapping turtle the largest freshwater turtle in North America and the only turtle in the world with a predatory lure in its mouth to the wood turtle which uses worm stomping to catch earthworms to the lovely ornate box turtle which closes its shell completely for self defense the slow but sure turtle is an intriguing reptile Terry VanDeWalle provides a complete description of each species both male and female along with distinguishing characteristics for fourteen subspecies information about range and habitat and natural history notes about behavior hibernation diet and nesting Two panels devoted to hatchlings provide short descriptions of the young of each species as well as photographs of some commonly seen young turtles *Pilot Study of the Marine Mammals, Birds, and Turtles in OCS Areas of the Gulf of Mexico* Thomas H. Frazier,1985 Paperback Studies in the Comoro Archipelago form part of a larger project to assess the status and distributions of sea turtles in the western Indian Ocean an ambitious venture that still continues The Comoro Archipelago has been little studied and the sea turtles there have been virtually ignored by biologists None the less there are relatively large numbers of turtles nesting in these islands and the adjoining shallow water areas with some of the richest reefs in the western Indian Ocean may provide important feeding habitats for many turtles This illustrated report is the first detailed account of marine turtles in the Comores Based on merely four month s observations it is but a preliminary statement but because follow up studies

are likely to be few there have been none in over a decade the results are presented in detail to facilitate future comparative studies
