The Chapman Report:

The Chapman Report Irving Wallace, 1961 *Irving Wallace* John Leverence, 1974 This profile of Irving Wallace and his work includes more than 200 photographs and illustrations It recounts his Midwest Hollywood and European years his experiences during a lifetime of travel his adventures as a journalist in the Far East and Europe his embroilment in political and literary controversies his legal battles and many other facets of his extraordinary life **American Sexual Character** Miriam G. Reumann, 2005-03-07 When Alfred Kinsey's massive studies *Sexual Behavior in the Human Male* and *Sexual Behavior in the Human Female* appeared in 1948 and 1953 their detailed data spurred an unprecedented public discussion of the nation's sexual practices and ideologies As they debated what behaviors were normal or average abnormal or deviant Cold War Americans also celebrated and scrutinized the state of their nation relating apparent changes in sexuality to shifts in its political structure economy and people *American Sexual Character* employs the studies and the myriad responses they evoked to examine national debates about sexuality gender and Americanness after World War II Focusing on the mutual construction of postwar ideas about national identity and sexual life this wide ranging shrewd and lively analysis explores the many uses to which these sex surveys were put at a time of extreme anxiety about sexual behavior and its effects on the nation Looking at real and perceived changes in masculinity female sexuality marriage and homosexuality Miriam G Reumann develops the notion of American sexual character sexual patterns and attitudes that were understood to be uniquely American and to reflect contemporary transformations in politics social life gender roles and culture She considers how apparent shifts in sexual behavior shaped the nation's workplaces homes and families and how these might be linked to racial and class differences **Space Regulation in Canada: Past, Present and Potential** Aram Daniel Kerkonian, 2021-03-24 Space is no longer the domain of national space agencies Today a significant majority of space activities are carried out by non governmental entities resulting in the accelerated evolution of space technologies and their applications This operational shift from public to private does not mean however that governments are no longer relevant in this era of New Space On the contrary as the operational role of the state has diminished its regulatory role has grown correspondingly Acknowledging that the commercial landscape in space is an ever changing one this book explores how the Canadian government has adapted to the new commercial space landscape and whether it is prepared to fulfil its authorisation and supervision responsibilities as the regulator of Canada's space industry The fundamental research question posed therefore is whether Canada's regulatory framework is appropriate given the increasing commercialisation of space To best answer this question the book provides a doctrinal analysis of Canada's historical space policy and current space laws an empirical survey of the perspectives of those currently interacting with Canada's regulatory framework and a comparative exploration of how other jurisdictions oversee commercial space activities Motivated by legal moral and economic considerations the book recommends that Canada enact a comprehensive national space law and provides an annotated draft

law for this purpose By doing so the book intends to spark a meaningful conversation on how Canada ought to fulfil its regulatory responsibilities a topic previously unaddressed in public and academic discourse *Defence and Discovery* Andrew B. Godefroy,2011-04-01 The space race between the United States and the Soviet Union during the Cold War is well documented but few are aware that Canada too was an early contender in space exploration Indeed in 1962 Canada bested the more powerful United Kingdom to become the third nation to reach outer space *Defence and Discovery* presents the first comprehensive investigation into the origins development and impact of Canada s space program Through meticulous research including newly declassified material it demonstrates the central role of the military in Canada s early space research Moreover it reveals the technological political and strategic implications of the country s early innovation in space research technology and its subsequent turn from this arena A striking contribution to Canada s military and political history *Defence and Discovery* illuminates a significant yet understudied period in Canada s growth as a nation **Another Life**

Michael Korda,2000-05-09 From world leaders to Mafia dons from Hollywood stars to the literary world s most eccentric writers the notable and notorious alike have entrusted their life s work to Simon Joan Crawford whose autobiography reflected a life she would have liked to have lived but did not Joseph Bonanno the retired Mafia don who d do anything to keep from being killed by the reviewers And in a revelatory account that reads as compulsively as fiction *Another Life* paints a vivid picture of publishing s glitterati including Jacqueline Susann who liberated women s fiction and terrorized a publishing house and Tennessee Williams who nourished his genius on four course vodka lunches A veritable Who s Who of stage screen and letters *Another Life* is the deft interweaving of publishing at it most fascinating and storytelling at its finest

[The Concept of State Jurisdiction in International Space Law](#) Imre Anthony Csabafi,2012-12-06 Dr Csabafi in his clearly and concisely written book sets out to confront the most pressing jurisdictional problems arising from the exploration and use of outer space problems which the authors of the Outer Space Treaty of 27th January 1967 have not attempted to solve He has recognized that in view of the lack of sufficient knowledge of tech nological capabilities present and anticipated of the utilization of outer space and its political economic and social implications the time is not yet ripe for the elaboration of specific rules to govern most of the highly com plex issues in this context Apart from the lack of sufficient knowledge and experience the achieve ment of a consensus on rules regarding jurisdiction in outer space is further hampered by the strongly divergent interpretations of the fundamental prin ciples of the Outer Space Treaty namely the principle of freedom of outer space for exploration and use and the principle of non appropriation of outer space In various parts of his study Dr Csabafi has on the basis of a thorough study of the preparatory work of the Outer Space Treaty ex pressed his views on the meaning of these principles **Proceedings of the ...
