Industry Burton Jesse Hendrick, 2021-04-25 In *The Age of Big Business: A Chronicle of the Captains of Industry* Burton Jesse Hendrick meticulously chronicles the rise of industrial magnates during the late 19th and early 20th centuries. With a narrative that blends vivid storytelling and rigorous historical analysis, Hendrick sheds light on the transformative figures who shaped American commerce, such as John D. Rockefeller and Andrew Carnegie. His engaging prose reflects the complexities of America's transition into an industrial powerhouse, characterized by both the innovative spirit of entrepreneurship and the ethical dilemmas posed by capitalism. The book situates these captains of industry within a broader socio-economic context, offering a critical lens on the impact of big business on American society and politics. Burton Jesse Hendrick was an accomplished journalist and biographer whose experiences in the evolving landscape of American industry undoubtedly informed his perspective. His deep engagement with the economic changes of his time, coupled with a journalistic dedication to uncovering essential truths, enabled him to present a nuanced view of industrial leaders that resonates with both admiration and skepticism. Hendrick's prior writings on personalities of the Progressive Era further enrich his examination of these transformative figures. *The Age of Big Business* is a compelling read for anyone interested in understanding the dynamics of American capitalism and the personalities that fueled its growth. Hendrick's blend of detailed research and engaging narrative not only educates but also provokes thought regarding the moral responsibilities of business leaders, making this book an invaluable resource for historians, students, and general readers alike. **Athenaeum and Literary Chronicle**, 1871 *Chronicles of Saratoga* Evelyn Barrett Britten, 1959
