Disparities Slavoj Žižek, 2016-10-20 The concept of disparity has long been a topic of obsession and argument for philosophers but Slavoj i ek would argue that what disparity and negativity could mean might mean and should mean for us and our lives has never been more hotly debated *Disparities* explores contemporary negative philosophies from Catherine Malabou's plasticity Julia Kristeva's abjection and Robert Pippin's self consciousness to the God of negative theology new realisms and post humanism and draws a radical line under them Instead of establishing a dialogue with these other ideas of disparity Slavoj i ek wants to establish a definite departure a totally different idea of disparity based on an imaginative dialectical materialism This notion of rupturing what has gone before is based on a provocative reading of how philosophers can if they're honest engage with each other Slavoj i ek borrows Alain Badiou's notion that a true idea is the one that divides Radically departing from previous formulations of negativity and disparity i ek employs a new kind of

negativity namely positing that when a philosopher deals with another philosopher his or her stance is never one of dialogue but one of division of drawing a line that separates truth from falsity *Harper's* ,1902 *Educational Bulletin* North Carolina.
