Fiber-Optic Sensors For Infrastructure Health Monitoring, Volume II Zhishen Wu, Jian Zhang, Mohammad Noori, 2018-12-11 Over the past two decades extensive research has been conducted on the application of fiber optic sensors FOSs in structural health monitoring SHM In Volume 1 of this book a long gauge sensing technique for incorporating a proposed areawise sensing developed by the authors was introduced High precision and good durability of the long gauge sensors were also demonstrated via technical improvements that further enable the applications of optical fiber sensors and carbon fiber sensors In Volume 2 based on the merits of the long gauge sensors the methods that have been developed for processing areawise distributed monitoring data for structural identification are introduced A discussion follows on how those methods are capable of performing a rich recognition of local and global structural parameters including structural deflections dynamic characteristics damages and loads Also presented is a three level method of structural performance evaluation that utilizes monitoring data and identified results Handbook of Service Science, Volume II Paul P. Maglio, Cheryl A. Kieliszewski, James C. Spohrer, Kelly Lyons, Lia Patrício, Yuriko Sawatani, 2018-10-16 The second volume of this successful handbook represents varied perspectives on the fast expanding field of Service Science The novel work collected in these chapters is drawn from both new researchers who have grown up with Service Science as well as established researchers who are adapting their frames for the modern service context The first Handbook of Service Science marked the emergence of Service Science when disciplinary studies of business to customer service systems intertwined to meet the needs of a new era of business to business and global service ecosystems Today the evolving discipline of Service Science involves advanced technologies such as smartphones cloud social platforms big data analytics and artificial intelligence These technologies are reshaping the service landscape transforming both business models and public policy ranging from retail and hospitality to transportation and communications By looking through the eyes of today s new Service Scientists it is anticipated that value and grand challenges will emerge from the integration of theories methods and techniques brought together in the first volume but which are now rooted more deeply in service dominant logic and systems thinking in this second volume The handbook is divided into four parts 1 Service Experience On the Human centered Nature of Service 2 Service Systems On the Nature of Service Interactions 3 Service Ecosystems On the Broad Context of Service 4 Challenges On Rethinking the Theory and Foundations of Service Science The chapters add clarity on how to identify enable and measure service thus allowing for new ideas and connections made to physics design computer science and data science and analytics for advancing service innovation and the welfare of society Handbook of Service Science Volume II offers a thorough reference suitable for a wide reaching audience including researchers practitioners managers and students who aspire to learn about or to create a deeper scientific foundation for service design and engineering service experience and marketing and service management and innovation **Customer Interaction and Customer Integration** ,2006
