

Cartesian dualism

- Cartesius *wanted* to write smth on theology. And it was a disaster, not for him, but for those who read him later.
- „Cartesian dualism readily invited plain materialism.” (Stanley Jaki, *The brain-Mind Unity: The Strangest Difference* p. 2)
- „That the mind was a mere function of physiological processes in the brain was a staple claim of XVIIIth century materialists as Helvetius and De la Maitre” (SJ)
- „Dualism, as was the case with Descartes, discredits itself when it looks at the soul as something *merely* attached to the brain but not wholly diffused within it in the sense of being integrated with it.” (SJ)
- Descartes thought that a substance has to have essence or an essential trait that makes it the kind of substance it is (*all this jargon about substance and essence, by the way, comes from Aristotle*). [J.R. Searle, *Mind: A Brief Introduction*, p. 13]
- „Dualism has at least the advantage over monism in that it takes the difference most seriously” (SJ, pp.20-21)
