

IN THE BEGINNING LIVED MANKIND'S MOST AMAZING PEOPLE THE CHILDREN OF MU

★ Sixty-three million people lived on the now lost continent of Mu over 200,000 years ago. Fifty thousand years ago their civilization disappeared beneath the middle of the Pacific Ocean.

★ The children of Mu became the most influential people on Earth when, according to Darwin, Man was still closely related to the monkey.

★ America was one of the first colonies of Mu.

★ The children of Mu had an incredibly sophisticated government, flowering of culture and scientific technology. Evidence has been found that indicates they flew in lighter-than-air machines.

★ When Mu sank, and the mountains appeared, man degenerated into the savagery out of which our own civilizations have emerged.

All these statements are made—and proved—in this astonishing book, written by James Churchward, one of the world's most extraordinary mystics and scientists.
