The World in Focus ,1950 The World's Cyclopedia of Science ,1883 World Focus ,2005 The Word ,1910
The World's Work ,1920 **Educational Focus** ,1930 *The World's Great Classics: Essays of French, German and Italian essayists* ,1899 Focus Power Lila Santoro,AI,2025-03-15

Focus Power addresses the pervasive struggle to maintain focus in a world teeming with distractions. It provides a science backed approach to enhancing concentration and boosting productivity. Did you know that our brains are wired to seek novelty making constant digital stimulation exceptionally distracting. The book argues that focus isn't just innate it's a skill we can cultivate through understanding our brain's attentional systems. The book begins by diving into the neuroscience of attention exploring the brain regions involved in concentration and distraction before offering practical techniques like mindfulness and time management. Real world examples and case studies illustrate how to minimize digital distractions and create optimal work environments. The book also emphasizes the power of attention regulation illustrating how even small changes to your environment can significantly impact your ability to concentrate. Focus Power progresses systematically starting with the science and moving to practical application. It empowers readers to take control of their attention offering tools and strategies applicable across various settings. By blending research with actionable advice this book provides a unique and valuable resource for anyone seeking to thrive in an increasingly demanding world.

Education, Poverty and the World Bank Philip W. Jones,2006-01-01

The book tells the story of the World Bank's involvement in education for which lending began in 1963. The study considers how the nature of the Bank as a financial institution has shaped its view of development and globalisation and how education relates to these. The book examines the reasons why the Bank is involved in education its education policy stances the nature and impact of its projects and lending programs and the Bank as an agent of globalisation. Bank work in education is hugely controversial. All around the world in industrial countries in transition economies and in the poorest countries the Bank continues to be under fire for its policy prescriptions and its modes of operation. From both left and right the Bank is a major target of discontent. In the popular imagination the impact of globalisation and the Bank's shaping of such fields as education in accordance with neo liberal and market prescriptions are prime sources of unease. At the same time the Bank is frequently misunderstood and misrepresented. This book is based on the author's unique access to the Bank its files staff and working documents over nearly 20 years. The work is based on access to thousands of classified Bank documents and on a large number of interviews with past and present Bank officials. Therefore while critical of many features the Bank the book will be recognised as an authoritative guide to Bank policy formation in education.

Focus on Terrorism Edward V. Linden,2002

Terrorism sadly seems here to stay and to stay with a vengeance. It turns out that the United States was not prepared for it and now must play catch up. Countries such as Japan France Spain England and others have been targeted and attacked as well. As opposed to traditional forms of war where the enemy is known and locatable the war on terrorism features fogily

defined enemies who seem at the same time everywhere and nowhere This book presents important new reports of issues trends and developments in the global war on terrorism *The World in Focus* Roger Hicks,1988 A collection of photos from the world over The Charlotte Medical Journal ,1915 California.
