## **Tickle Me Too:**

Upper Elementary Reading Lessons Marilyn J. Chambliss, Linda Valli, 2011-07-16 Engaging students in worthwhile learning requires more than a knowledge of underlying principles of good teaching. It demands considerable practice as well as images of what good teaching in particular situations and for particular purposes might look like. This volume provides these images. These cases were written from authentic unrehearsed lessons taught by upper elementary classroom teachers to diverse groups of real students in intact classrooms. Each lesson contains elements of sound instructional practice from which both preservice and in-service teachers can benefit. Cases are not meant to be ideal but rather to evoke ways of seeing and thinking about good classroom instruction for all learners. Accompanied by analytic commentaries from experts representing a particular perspective such as special education and ESOL, these unrehearsed cases are written with the understanding that teaching is complex and multi-dimensional. The cases are drawn from a four-year study of 4th and 5th grade mathematics instruction of culturally diverse classrooms with relatively high rates of students from low-income families.

**Flock** E.A. Mellen, Patterns The Story Teller 2 Hashmi, *New Russian Drama* Maksim Hanukai, Susanna Weygandt, 2019-08-06 New Russian Drama took shape at the turn of the new millennium, a time of turbulent social change in Russia and the former Soviet republics. Emerging from small playwriting festivals, provincial theaters, and converted basements, it evolved into a major artistic movement that startled audiences with hypernaturalistic portrayals of sex and violence, daring use of non-normative language, and thrilling experiments with genre and form. The movement's commitment to investigating contemporary reality helped revitalize Russian theater. It also provoked confrontations with traditionalists in society and places of power, making theater once again Russia's most politicized art form. This anthology offers an introduction to New Russian Drama through plays that illustrate the versatility and global relevance of this exciting movement. Many of them address pressing social issues such as ethnic tensions and political disillusionment; others engage with Russia's rich cultural legacy by reimagining traditional genres and canons. Among them are a family drama about Anton Chekhov, a modern production play in which factory workers compose haiku, and a satirical verse play about the treatment of migrant workers, as well as a documentary play about a terrorist school siege and a postdramatic text that is only two sentences long. Both politically and aesthetically uncompromising, they chart new paths for performance in the twenty-first century. Acquainting English language readers with these vital works, *New Russian Drama* challenges us to reflect on the status and mission of the theater.
