Literature in an Age of Illustration The Victorians lived in an age of illustration In a matter of decades words and images had
become enmeshed and entangled printed alongside each other in a spectacular array of printed forms The exponential
growth of illustration not only radically changed literature but also changed the way that literature was read This book offers
a major conceptualisation of the difference that pictures made to the reading of words Analysing an extensive range of
illustrated material and drawing on the accounts of Victorian readers reviewers authors artists and psychologists the book
describes how the Victorians characterised the effects of illustration and how illustrations in turn elicited and anticipated
responses from their readers What emerges from these sources is the notion of a distinct mode of reading that determined
readers material and mental engagements with illustrated literature The presence of images on the page was said to impact
on whether readers created images in their mind as they read Illustrations generated feelings of pleasure or displeasure they
determined what was read first what was recalled and what was etched in the memory By peering into the recesses of the
mind's eye this book identifies the cognitive mechanisms and cultural politics that were central to how the Victorians
described their reading of illustrated literature It suggests the significance of these ideas of reading for understanding the
place of illustration in Victorian culture and the relation between words pictures and historical values and meanings
Illustration was fundamental to how the Victorians read and to how we read the Victorians **Victorian Minds** Gertrude
Himmelfarb, 1995-02-01 Where Victorianism once conjured up an image of smugness hypocrisy and mindlessness it now
suggests quite the reverse an age of high intellectual moral and spiritual tension in which the typical problems of modernity
were posed in their most acute forms Gertrude Himmelfarb's distinguished piece of intellectual history explores these
tensions and problems with sympathy candor and critical subtlety Victorian Minds is a study of intellectuals in crisis and of
ideologies in transition rendered with an elegance of style and thought Few works that I know convey the excitement of the
intellectual life of 19th century England as immediately The essays are remarkable no less for the cogency of their wit than
for the range and precision of their scholarship Lionel Trilling Precise and discriminating an exemplary study of the 19th
century and a superb introduction to the 20th Robert A Nisbet Miss Himmelfarb is a writer to whom the organization of ideas

into intricate shapes and patterns is imperative and like many of her subjects and comparatively few modern intellectuals she is capable of poised and meaningful generalization A S Byatt
