Video Object Extraction and Representation I-Jong Lin,S.Y. Kung,2005-11-30 If you have built castles in the air your work need not be lost that is where they should be Now put the foundations under them Henry David Thoreau Walden Although engineering is a study entrenched firmly in belief of pr matism I have always believed its impact need not be limited to pr matism Pragmatism is not the boundaries that define engineering just the sometimes unforgiving rules by which we sight our goals This book studies two major problems of content based video proce ing for a media based technology Video Object Plane VOP Extr tion and Representation in support of the MPEG 4 and MPEG 7 video standards respectively After reviewing relevant image and video p cessing techniques we introduce the concept of Voronoi Ordered Spaces for both VOP extraction and representation to integrate shape infor tion into low level optimization algorithms and to derive robust shape descriptors respectively We implement a video object segmentation system with a novel surface optimization scheme that integrates Voronoi Ordered Spaces with existing techniques to balance visual information against predictions of models of a priori information With these VOPs we have explicit forms of video objects that give users the ability to dress and manipulate video content We outline a general methodology of robust data representation and comparison through the concept of complex partitioning mapped onto Directed Acyclic Graphs DAGs **Video Object Plane Extraction and Representation :theory and Application** I-Jong Lin,2000 Journal of VLSI Signal Processing Systems for Signal, Image, and Video Technology ,2000 2012 International Conference on Information Technology and Management Science(ICITMS 2012) Proceedings Bing Xu,2013-02-15 The main objective of the ICITMS 2012 is to provide a platform for researchers engineers academics and industrial professionals from all over the world to present their research results and development activities in Information Technology and Management Science This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face to establish business or research relations and to find global partners for future collaboration **Introduction to MPEG-7** B.
