Why Watergate:

Why Watergate? Paul J. Halpern, 1975 *The Nixon Effect* Douglas E. Schoen, 2016-01-19 The Nixon Effect examines the 37th president's political legacy in broad ranging ways that make clear for the first time the breadth and duration of his influence on American political life The book argues that Nixon is the key political figure in postwar American politics in multiple ways some barely acknowledged until now His legacy includes a generational shift in the ideological orientations of both the Republican and Democratic parties the Nixon influence both intentional and unintentional was to push both parties further out to their ideological poles So stark was Nixon's influence on party identities that it shaped the hardened partisan polarization in Washington today and the evolution of what has come to be called Red and Blue America Stemming in part from this and also from Nixon's scorched earth political warfare and eventually his Watergate scandal we have also seen the evolution of politics as war where adversaries and ideological opponents are seen as evil or unpatriotic Finally Nixon's pioneering tactics from the identification of the Silent Majority to the Southern Strategy from triangulating between both parties and claiming the political center to launching the culture war with attacks on elites in media academia and the courts have shaped political communications and strategy ever since Other books have argued for Nixon's importance but Douglas E Schoen's is the first to take into account the full range of this fascinating man's influence While not discounting Nixon's many misdeeds Schoen treats his presidency and its importance with the seriousness and evenhandedness that the subject deserves U.S. History, Grades 6 - 8 George R. Lee, 2008-09-02 Bring history to life for students in grades 6 and up using U S History People and Events 1865 Present This 128 page book provides a full spectrum view of some of the most fascinating and influential lives and occurrences in U S history *Congressional Record* United States. Baker, 2001 This text introduces students to both primary sources and analytical essays on important topics in U S history The book asks students to evaluate primary sources test the interpretations and draw their own conclusions Congressional Record Index , 1973 Includes history of bills and resolutions **The Making of the President, 1972** Theodore H. White, 2010-10-05 The classic you are there account of the Nixon McGovern election by the Pulitzer Prize winning New York Times bestselling author A brilliant analysis Commentary The Making of the President 1972 chronicles both the Democratic and the Republican parties as they jockeyed for position toward the end of Richard M Nixon's turbulent first term Theodore White illuminates the cinematic moments that shaped the campaign the attempt on George Wallace's life Edmund Muskie crying in the snow in New Hampshire the swift rise and fall of Tom Eagleton and the ongoing anguish of

Vietnam leading inexorably to a second chaotic collapse among the Democrats and a landslide victory for Nixon Yet even as the president's highest ambitions were confirmed White watches aghast as the new Nixon of 1968 is eclipsed by the corrupt Nixon of old a Shakespearean conclusion to an astonishing political epoch The byzantine events of 1972 unfold here like a timebomb ticking away Nixon's dramatic foreign adventures the Muskie bust and the McGovern phenomenon the President's deliberate surrogate campaign the Democrats bloodletting at Miami Beach and the beginning of the destruction of George Stanley McGovern as a viable candidate Kirkus Reviews One of America's most celebrated political writers The New York Times Among the most influential and gifted journalists of the twentieth century More than anyone else White changed the way American politics and government are covered and in the process he had a major impact on the politicians as well Chicago Tribune Includes a new foreword by Cokie Roberts *The Nixon Presidency* Michael A. Genovese, 1990-08-13 The first study to integrate and interrelate key elements of the Nixon presidency the volume traces Nixon's rise and fall emphasizing his presidency and Watergate Also an investigation of the presidency broadly defined the work is informed by concerns of both traditional political biography and of contemporary presidential scholarship Genovese raises issues and questions vital to the presidency as he focuses on Nixon as political leader and on his style of decisionmaking and management He concludes with an analysis of Nixon's impact on and legacy to the presidency **Political Behavior** Phillip L. Gianos, 1982 *Profiles of an Era, the Nixon/Ford Years* Eleanor W. Schoenebaum, 1979 **Ideology and Utopia in the United States, 1956-1976** Irving Louis Horowitz, 1977 Put on your hardhats and get to work at the construction site Nothing is too big for these heavy duty trucks to load and lift Read along and the building will be up in no time *Political Science Reading Lists and Course Outlines*, 1981 *Political Scandals in the USA* Robert Williams, 1998 From Watergate to Whitewater US politics have had their fair share of high profile debacles The misdeeds of politicians often assume more importance than their achievements they can damage or destroy careers and bring down political parties Watergate forced the only presidential resignation in American History the Iran Contra affair exposed the limitations of President Reagan and the Whitewater scandal periodically paralysed the White House and embarrassed President Clinton This book focuses on presidential and congressional scandals of the last 25 years and offers the first sustained explanation of the reasons for them and their often dramatic consequences Readers of this exciting and accessible book will come to understand how the American political system really works *Transnational law & contemporary problems*, 2002 *Presbyterian Survey*, 1978 *American Journalism Review*, 2004 **Modern America** Allan M.
