The Chinese Experience:

The Chinese Experience Raymond Dawson, 1978 **The Chinese Experience in America** Shih-shan Henry Tsai, 1986
How have the Chinese fared in America? What motivated them to come here in the nineteenth century? How were they received by native Americans? These are some of the questions that Henry Tsai deals with in this important new book. He treats the nineteenth century immigration experience, the development of early Chinese communities, American exclusion and the difficulties of living in the shadow of exclusion, and the Chinese community in the post World War II era and today. Also covered are Chinese women in contemporary American society, the problems with children and youth in a multiracial society, and international issues such as the relationships between the U.S., China, and Taiwan, and the implications of these issues for the Chinese in America. The work provides a solid statistical analysis in a way that will be accessible to students and scholars as well as general readers.

Marxism and the Chinese Experience Arif Dirlik, Maurice Meisner, 2016-09-16
These essays consider the implications for Chinese socialism of the repudiation of the Cultural Revolution and the legacy of Mao Zedong, as well as the meaning of the new definition and direction Mao's successors have given socialism. The themes have been selected for conceptual coherence within a socialist problematic of social change. Representing anthropology, art history, economics, history, literature, and politics, various inquiries point in a twofold direction: the meaning of socialism for China and the meaning of Chinese Socialism for socialism as a global phenomenon, meaning not in some abstract sense but rather as it is constituted in the process of political ideological activity which articulates and defines social relationships within China, as well as China's relationship to the world.

Inner Experience of the Chinese People Xiaohong Zhou, 2017-10-24
This book comprehensively explores the changes in the Chinese spiritual world from the perspective of transition and transformation. Chinese feeling, a brand new concept corresponding to Chinese experience, refers to the vicissitudes that 1.3 billion Chinese people have been through in their spiritual worlds. The book discusses this concept together with Chinese experience, two aspects of the transformation of the Chinese mentality that resulted from the unprecedented social changes since 1978 and which have given this unique era historical meaning and cultural values. At the same time, they offer a dual perspective for understanding this great social transition. Further, the book considers what will happen if we only focus on the Chinese Experience while neglecting the Chinese Feeling: the changes the Chinese people undergo when their desires, wishes, and personalities have changed; China and how their emotionally charged social mentality follow ebbs and flows of the changing society. Lastly, it asks what embarrassment and frustration the population will be faced with next after the tribulations their spiritual world has already been through.

Surviving the City Xinyang Wang, 2001
Exploring the multifaceted Chinese experience in New York City, Xinyang Wang persuasively illustrates that economic forces, more than racism, influenced immigrants' life decisions.
