View From The Divide:

A View from the Divide Lee Gutkind,1998 In the tradition of Lewis Thomas Stephen J Gould and Oliver Sachs this special double issue of Creative Nonfiction the only exclusively nonfiction literary journal demonstrates the many ways in which aspects of the scientific world from biology medicine physics and astronomy can be captured and dramatized for a humanities oriented readership Edited and introduced by the award winning author of *Many Sleepless Nights An Unspoken Art* and *A View from the Divide* includes a diverse range of voices from poets to immunologists and physicists from established writers to up and coming new talent *The View from the Divide* David Kotzebue,2014-06-25 The poetry and verses of DAVID VON KOTZEBUE aka MAJOR FUN

Pattern Calculus Barry Jay,2009-07-30 Over time basic research tends to lead to specialization increasingly narrow topics are addressed by increasingly focussed communities publishing in increasingly connected workshops and conferences discussing increasingly incremental contributions Already the community of programming languages is split into various communities addressing different aspects and paradigms functional imperative relational and object oriented Only a few people manage to maintain a broader view and even fewer step back in order to gain an understanding about the basic principles their interrelation and their impact in a larger context The pattern calculus is the result of a profound re examination of a 50 year development It attempts to provide a unifying approach bridging the gaps between different programming styles and paradigms according to a new slogan computation is pattern matching It is the contribution of this book to systematically and elegantly present and evaluate the power of pattern matching as the guiding paradigm of programming Patterns are dynamically generated discovered passed applied and automatically adapted based on pattern matching and rewriting technology which allows one to elegantly relate things as disparate as functions and data structures Of course pattern matching is not new It underlies term rewriting it is for example incorporated in typically functional programming languages like Standard ML but it has never been pursued as the basis of a unifying framework for programming
