Violence Memory

CH Cherryholmes

Violence Memory:

Religion, Violence, Memory, and Place Oren Baruch Stier, J. Shawn Landres, 2006 Scholars from a variety of disciplines explore the intersections of violence memory and sacred space Diaspora and Memory, 2016-08-01 Experiences of migration and dwelling in displacement impinge upon the lives of an ever increasing number of people worldwide with business class comfort but more often with unrelenting violence Since the early 1990s the political and cultural realities of global migration have led to a growing interest in the different forms of diasporic existence and identities The articles in this book do not focus on the external boundaries of diaspora what is diasporic and what is not but on one of its most important internal boundaries which is indicated by the second term in the title of this book memory It is not by chance that the right to remember the responsibility to recall are central issues of the debates in diasporic communities and their relation to their cultural and political surroundings The relation of diaspora and memory contains important critical and maybe even subversive potentials Memory can transcend the territorial logic of dispersal and return and emerge as a competing source of diasporic identity The articles in this volume explore how shaped by the responsibilities of testimony as well as by the normalizing forces of amnesia and forgetting and political interests memory is a performative figurative process rather than a secure space of identity The Routledge Handbook of Memory Activism Yifat Gutman, Jenny Wüstenberg, 2023-02-15 This Handbook is the first systematic effort to map the fast growing phenomenon of memory activism and to delineate a new field of research that lies at the intersection of memory and social movement studies From Charlottesville to Cape Town from Santiago to Sydney we have recently witnessed protesters demanding that symbols of racist or colonial pasts be dismantled and that we talk about histories that have long been silenced But such events are only the most visible instances of grassroots efforts to influence the meaning of the past in the present Made up of more than 80 chapters that encapsulate the rich diversity of scholarship and practice of memory activism by assembling different disciplinary traditions methodological approaches and empirical evidence from across the globe this Handbook establishes important questions and their theoretical implications arising from the social political and economic reality of memory activism Memory activism is multifaceted takes place in a variety of settings and has diverse outcomes but it is always crucial to understanding the constitution and transformation of our societies past and present This volume will serve as a guide and establish new analytic frameworks for scholars students policymakers journalists and activists alike **Memory and World War II** Francesca Cappelletto, 2005-08-01 Foreword by Michael Lambek The death and destruction of war leave behind scars and fears that can last for generations This book considers the connections between memory and violence in the wake of World War II Covering the range of European experiences from East to West *Memory and World War II* takes a long term approach to the study of trauma at the local level It challenges the notion of collective memory and calls for an understanding of memory as a fine line between the individual and society the private and the public International

contributors from a range of disciplines seek new ways to incorporate local memory within national history and consider whether memories of extreme violence can be socially transformed Personal testimony reveals the myriad ways in which communities react to and reconstruct the horrors of war What we learn is that terrifying experiences reside not only in memories of the past but remain embedded in present day lives

Memory and Commemoration in Medieval Culture Dr Elma Brenner, Dr Mary Franklin-Brown, Dr Meredith Cohen, 2013-04-28 In medieval society and culture memory occupied a unique position It was central to intellectual life and the medieval understanding of the human mind Commemoration of the dead was also a fundamental Christian activity Above all the past and the memory of it occupied a central position in medieval thinking from ideas concerning the family unit to those shaping political institutions Focusing on France but incorporating studies from further afield this collection of essays marks an important new contribution to the study of medieval memory and commemoration Arranged thematically each part highlights how memory cannot be studied in isolation but instead intersects with many other areas of medieval scholarship including art history historiography intellectual history and the study of religious culture Key themes in the study of memory are explored such as collective memory the links between memory and identity the fallibility of memory and the linking of memory to the future as an anticipation of what is to come

Historical Justice and Memory Klaus Neumann, Janna Thompson, 2015-07-28 Historical Justice and Memory highlights the global movement for historical justice acknowledging and redressing historic wrongs as one of the most significant moral and social developments of our times Such historic wrongs include acts of genocide slavery systems of apartheid the systematic persecution of presumed enemies of the state colonialism and the oppression of or discrimination against ethnic or religious minorities The historical justice movement has inspired the spread of truth and reconciliation processes around the world and has pushed governments to make reparations and apologies for past wrongs It has changed the public understanding of justice and the role of memory In this book leading scholars in philosophy history political science and semiotics offer new essays that discuss and assess these momentous global developments They evaluate the strength and weaknesses of the movement its accomplishments and failings its philosophical assumptions and social preconditions and its prospects for the future

Memory and the Jesus Tradition Alan Kirk, 2018-02-22 Alan Kirk argues that memory theory in its social cultural and cognitive dimensions is able to provide a comprehensive account of the origins and history of the Jesus tradition one capable of displacing the moribund form critical model He shows that memory research gives new leverage on a range of classic problems in gospels historical Jesus and Christian origins scholarship This volume brings together 12 essays published between 2001 and 2016 newly revised for this edition and organized under the rubrics of Memory and the Formation of the Jesus Tradition Memory and Manuscript Memory and Historical Jesus Research and Memory in 2nd Century Gospel Writing The introductory essay written for this volume argues that the old form critical model in marginalizing memory abandoned the one factor actually capable of accounting for the origins of the gospel tradition its

manifestation in oral and written media and its historical trajectory

Routledge International Handbook of Memory Studies Anna Lisa Tota, Trever Hagen, 2015-09-16 The Routledge International Handbook of Memory Studies offers students and researchers original contributions that comprise the debates intersections and future courses of the field It is divided in six themed sections 1 Theories and Perspectives 2 Cultural artefacts Symbols and Social practices 3 Public Transnational and Transitional Memories 4 Technologies of Memory 5 Terror Violence and Disasters 6 and Body and Ecosystems A strong emphasis is placed on the interdisciplinary breadth of Memory Studies with contributions from leading international scholars in sociology anthropology philosophy biology film studies media studies archive studies literature and history The Handbook addresses the core concerns and foundations of the field while indicating new directions in Memory Studies

Memory and the Postcolony Richard Werbner, 1998-09 Through theoretically informed anthropology this book meets the need to rethink our understanding of the moral political force of memory its official unofficial forms its moves from the personal the social in postcolonial transformations

Engaging Violence Ivana Maček, 2014-03-26 This volume opens up new ground in the field of social representations research by focusing on contexts involving mass violence rather than on relatively stable societies Representations of violence are not only symbolic but in the first place affective and bodily especially when it comes to traumatic experiences Exploring the responses of researchers educators students and practitioners to long term engagement with this emotionally demanding material the book considers how empathic knowledge can make working in this field more bearable and deepen our understanding of the Holocaust genocide war and mass political violence Bringing together international contributors from a range of disciplines including anthropology clinical psychology history history of ideas religious studies social psychology and sociology the book explores how scholars students and professionals engaged with violence deal with the inevitable emotional stresses and vicarious trauma they experience Each chapter draws on personal histories and many suggest new theoretical and methodological concepts to investigate emotional reactions to this material The insights gained through these reflections can function protectively enabling those who work in this field to handle adverse situations more effectively and can yield valuable knowledge about violence itself allowing researchers teachers and professionals to better understand their materials and collocutors

Engaging Violence Trauma memory and representation will be of key value to students scholars psychologists humanitarian aid workers UN personnel policy makers social workers and others who are engaged directly or indirectly with mass political violence war or genocide
