

“WAR IS A RACKET

It is possibly the oldest, easily the most profitable, surely the most vicious. It is the only one international in scope. It is the only one in which the profits are reckoned in dollars and the losses in lives. . .

A RACKET is best described, I believe as something that is **NOT** what it seems to be to the majority of people. Only a small “inside” group knows what it is really about.

It is conducted for the benefit of the very few, at the expense of the very many.

Out of **WAR** a few people make huge fortunes.”

Moosa,2019-12-27 Bad things occur and persist because of the presence of powerful beneficiaries In this provocative and illuminating book Imad Moosa illustrates the economic motivations behind the last 100 years of international conflict citing the numerous powerful individual and corporate war profiteers that benefit from war *War Is a Racket II* Robert Boland,2018-04-14 **Power and Crisis: Plotting Paths to Justice and Peace** ,2026-02-23 While other eras have faced severe challenges our crises including nuclear war and climate catastrophe involve unprecedented existential threats to human life It can seem as if our rulers are unable or unwilling to picture an alternative to the status quo For many there is insufficient hope for a good future and scores of people particularly the young are gripped with fear and nihilism about their

prospects This volume brings together a diverse group of thinkers appealing to a diverse range of sources responding both to the crisis in power and the crises we need power to address more skillfully even if this requires rethinking the role of power itself It is my hope as editor of this book that you will find resources for and examples of warm hearted and hard headed efforts at creating more just and peaceful forms of life Taken as a whole this volume is not intended to provide precisely what political project or theory is required to successfully address the crises in power and the crises power faces it is more a collection of prompts to focus our efforts on realizing a better world for operating under the shared commitment of mutual respect mutual critique and the importance of clear critical thought in the pursuit of a sane just and stable future

Outsourcing Duty Michael Robillard,Bradley Strawser,2022 Are contemporary soldiers exploited by the state and society which they defend More specifically have America s professional service members been uniquely exploited insofar as they have disproportionately carried the moral weight of America s collective war fighting decisions since the inception of the all volunteer force post Vietnam and particularly since 9 11 In this work Michael Robillard and Bradley Strawser argue that many of American soldiers have indeed been exploited in this unique way By offering their original normative theory of moral exploitation the notion that persons or groups can be wrongfully exploited by being made to shoulder an excessive amount of moral responsibility moral risk and exposure to dirty hands Robillard and Strawser make the case that such a state of affairs indeed describes America s present relationship with her military By offering a thorough and in depth analysis of some of the exploitative and misleading elements of present day military recruitment the pernicious civil military divide existing between military members and the civilian principle both within the organs of government and the public at large and the stifling effect that Thank You for Your Service I support the troops culture has had on serious public engagement concerning America s ongoing wars Robillard and Strawser offer a tour de force of eye opening arguments on the demoralizing state of affairs for the American soldier They conclude by arguing for several normative and prudential prescriptions to help close this ever widening fissure existing between America and its military and existing within America herself In so doing their work gives a much needed and urgent voice to America s other 1% **War Is a Racket** Smedley Butler,2012-01-12
