

Washington Irving A Reference Guide

Scott C. Dulebohn

Washington Irving A Reference Guide:

Washington Irving Haskell S. Springer,1976 **Washington Irving** Haskell S. Springer,1976 *Washington Irving and the Fantasy of Masculinity* Heinz Tschachler,2022-01-17 Washington Irving remains one of the most recognized American authors of the 19th century remembered for short stories like Rip van Winkle and The Legend of Sleepy Hollow He also accomplished other writing feats including penning George Washington's biography and other life stories Throughout his life Irving was at odds with socially approved ways of being a man Irving purportedly saw himself and was seen by others as feminine shy and non confrontational Likely related to this he chose to engage with other men's fortunes and adventures by writing defining his male identity vicariously through masculine archetypes both fictional and non fictional Sitting at the intersection of literary studies and masculinity studies this reading reconstructs Irving's life long struggle to somehow win a place among other men Readers will recognize masculine themes in his tales from the Spanish period his western adventures as well as in historical biographies of Columbus Mahomet and Washington In many writings by Irving especially Sleepy Hollow readers will observe themes dominated by masculinity The book is the first of its kind to encompass and examine Irving's writings

Encyclopedia of American Humorists Steven H. Gale,2016-04-14 First published in 1988 this book contains entries on famous American Humorists Humor has been present in American literature from the beginning and has developed characteristics that reflect the American character both regional and national Although American literature was in the past treated as inferior to British literature there has always been a large popular audience for the genre which this book shows The figures with entries in this encyclopedia not only amuse in their writing but also aim to enlighten setting out to expose the foibles and foolishness of society and the individuals who compose it It is the manner in which these authors try to accomplish this end that determines whether they appear in the volume Indeed the book will demonstrate that the best humor has at its base a ready understanding of human nature

[Multicultural Writers from Antiquity to 1945](#) Alba Amoia,Bettina L. Knapp,2001-10-30 The final decades of the 20th century have seen an explosion of interest in multiculturalism But multiculturalism is more than an awareness of the different cultures comprising contemporary societies For centuries people from around the world have come in contact with cultures other than their own and their exposure to multiple cultures has fostered their creativity and ability to make lasting contributions to civilization The effects of multiculturalism are especially apparent in literature since writers tend to be particularly aware of their environments and record their experiences This reference includes alphabetically arranged entries for more than 100 world writers from antiquity to 1945 who were significantly influenced by cultures other than their own Included are entries for major canonical Ancient and Modern writers of the Western and Eastern worlds Each entry is written by an expert contributor and includes a brief biography a discussion of multicultural themes and contexts a summary of the writer's critical reception and primary and secondary bibliographies By illuminating the shaping influence of multiculturalism on these writers the volume points to

the lasting value of multiculturalism in the contemporary world

Spain in America Richard L. Kagan, 2002 Setting aside the pastiche of bullfighters and flamenco dancers that has dominated the U S image of Spain for more than a century this innovative volume uncovers the roots of Spanish studies to explain why the diversity vitality and complexity of Spanish history and culture have been reduced in U S accounts to the equivalent of a tourist brochure Spurred by the complex colonial relations between the United States and Spain the new field of Spanish studies offered a way for the young country to reflect a positive image of itself as a democracy in contrast with perceived Spanish intolerance and closure Spain in America investigates the political and historical forces behind this duality surveying the work of the major nineteenth century U S Hispanists in the fields of history art history literature and music A distinguished panel of contributors offers fresh examinations of the role of U S writers especially Washington Irving and Henry Wadsworth Longfellow in crafting a wildly romantic vision of Spain They examine the views of such scholars as William H Prescott and George Ticknor who contrasted the failure of Spanish history with U S exceptionalism Other essays explore how U S interests in Latin America consistently colored its vision of Spain and how musicology in the United States dominated by German migr s relegated Spanish music to little more than a footnote Also included are profiles of the philanthropist Archer Mitchell Huntington and the pioneering art historians Georgiana Goddard King and Arthur Kingsley Porter who spearheaded U S interest in the architecture and sculpture of medieval Spain Providing a much needed look at the development and history of Hispanism Spain in America opens the way toward confronting and modifying reductive views of Spain that are frozen in another time

American Literature Before 1880 Robert Lawson-Peebles, 2003-11-13 American Literature Before 1880 attempts to place its subject in the broadest possible international perspective It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastwards In between the book examines the projection of images of the East onto an as yet unrecognised West the cultural consequences of Viking Colombian and then English migration to America the growth and independence of the British American colonies the key writers of the new Republic and the development of the culture of the United States before and after the Civil War It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature The book therefore begins with a lengthy survey of earlier histories of American Literature
