## Valuing Others:

**Valuing Others in Classical Antiquity** Ralph Rosen, Ineke Sluiter, 2010-09-10 Human communities thrive on prosocial behavior This book demonstrates from a wide range of perspectives how such behavior is anchored and promoted in classical antiquity by a varied and conceptually rich discourse of valuing others

**Valuing People with a Learning Disability** Steve Mee, 2012 Most health and social care service providers claim to value those with a learning disability Yet there can sometimes be a huge gulf between stated intentions and what happens in everyday practice In a few cases that have recently hit the headlines there have even been allegations of systematic abuse This timely book asks three vital questions What do we mean by valuing How does the process of valuing work What needs to happen to ensure that we value people with a learning disability Too often practitioners tend to say they are all right in theory but not in the real world In this book Dr Steve Mee draws on his experience as a practitioner and lecturer on a learning disability nursing course in which he has successfully used stories to bridge the gap between academic theory and everyday practice Each chapter introduces the reader to a particular area of theory and illustrates it with uniquely powerful memorable stories from practice as well as examples from recent news and historic accounts Reading the book will give practitioners new insight empathy and sensitivity that will make a lasting difference to their practice It invites practitioners to truly reflect on whether they can claim to value the people they support

REVIEWER COMMENT I feel this is a very important piece of work in an area that is often misunderstood From reading the authors work I have questioned my own approach to valuing people with a learning difficulty
