Handbook of

Translation Studies Yves Gambier, Luc van Doorslaer, 2011-12-21 As a meaningful manifestation of how institutionalized the discipline has become the new Handbook of Translation Studies is most welcome It joins the other signs of maturation such as Summer Schools the development of academic curricula historical surveys journals book series textbooks terminologies bibliographies and encyclopedias The HTS aims at disseminating knowledge about translation and interpreting and providing easy access to a large range of topics traditions and methods to a relatively broad audience not only students who often adamantly prefer such user friendliness researchers and lecturers in Translation Studies Translation but also scholars and experts from other disciplines among which linguistics sociology history psychology In addition the HTS addresses any of those with a professional or personal interest in the problems of translation interpreting localization editing etc such as communication specialists journalists literary critics editors public servants business managers intercultural organization specialists media specialists marketing professionals Moreover The HTS offers added value First of all it is the first Handbook with this scope in Translation Studies that has both a print edition and an online version The advantages of an online version are obvious it is more flexible and accessible and in addition the entries can be regularly revised and updated The Handbook is variously searchable by article by author by subject A second benefit is the interconnection with the selection and organization principles of the online Translation Studies Bibliography TSB The taxonomy of the TSB has been partly applied to the selection of entries for the HTS Moreover many items in the reference lists are hyperlinked to the TSB where the user can find an abstract of a publication All articles between 500 and 6000 words are written by specialists in the different subfields and are peer reviewed Last but not least the usability accessibility and flexibility of the HTS depend on the commitment of people who agree that Translation Studies does matter All users are therefore invited to share their feedback

songs". Women and their imposed silence in "The Odyssey" translations Sofia Govoni, 2019-07-09 Master's Thesis from the year 2018 in the subject Interpreting Translating grade 108 University of Ferrara language English abstract The main topic of this work is the imposed silence on women in translation an activity that had always been the only intellectual activity that was considered suitable for them The first chapter wanted to define the concept of translation in all its facets and all historical and cultural tendencies Particularly it was observed that translation was suitable for women because of its intellectual inferiority and because of this was the only academical activity suitable for them But in the course of history it became just another tool at the service of the dominant part in society the male part that used it only to oppress women To affirm this all the attempts made by women to break the silence imposed to them were considered starting from the history of the feminist movement and all other ideologies that contributed to create and support the stereotypes imposed on women The second chapter analyses the first English translation of the Odyssey by the Greek poet Homer made by a woman Professor Emily Wilson In fact all the available English translations of this text were made by men that succeeded in reducing women to silence This was an innovative text and to demonstrate this the relevant passages featuring the female protagonists of the book were compared with the version by Peter Green in the attempt to find the main differences not only stylistic but also the ones given by the different gender of the translator Also it was possible to find the sexism that had already been present in the book but was reinforced in all translations Key tool for this analysis was Skopos Theory that puts in the first place the functionality of translation and most of all considers the importance of the cultural aspect in the definition of every translated text *Reader's Adviser and Bookman's Manual*, 1921

Equivalence and Literary Translation. Short Introduction to the Translation Studies Marta Zapala-Kraj, 2020-07-08 Research Paper postgraduate from the year 2019 in the subject Interpreting Translating grade 50 language English abstract In the following paper the author would like to show the meaning of translation its typology the most important difficulties which often appear in this area and the techniques that can be involved Due to the fact that the basic material of the research consists of the novel by Stephenie Meyer and her world wide best seller Twilight as well as the involvement of the Equivalence in the literary translation this points will be discussed broadly The translation is an amazingly broad issue which covers numerous notions of style meaning knowledge of the translation topic which is hard to point out looking at the very basics only Accordingly numerous researches has been carried out since the notion of the translation emerged as an academic study Every translation performance whether an oral or a written is a kind of conscious act leading to operation of rendering some text from the Source Language SL into the Target Language TL Literary translation is an odd art because a literary translator takes someone else's composition and performs it in his own special way However above everything the main point of any translation is for the translator to be the actual specialist within this particular field whether it is religious or technical or any other type of translation
