**The Perseids** Karen E. Holmberg,2001 The Perseids is a book of poems whose central concern is the way in which memory perception and imagination act as lenses to magnify experience creating a state of heightened observation and attention to detail The book contains two central points around which the other poems are clustered First the

Meditations in the Voice of Robert Hooke a series of two poems take on the persona of the seventeenth century microscopist and inventor Robert Hooke who was the first person to document verbally and graphically the micro world made newly visible by the invention of the microscope In these poems Hooke wonders at the fineness of creation and is moved to expressions of religious awe by the perfection in the forms of nature compared to those made by man In the second poem in this series Hooke recalls a summer day spent with his mother in their garden and meditates on the especial vividness of her presence with him in his memory and imagination despite her death many years before The other poem most critical to the collection is the title poem The Perseids A late twentieth century attempt to create a version of Wordsworth's Tintern Abbey this poem proceeds from a perspective common to several other poems in the collection that of an airplane This particular airplane is flying over the Long Island Sound at night bringing the speaker of the poem home Through the speaker's imagination and memory the perspective of the poem shifts from the airplane itself to a moment during a childhood camping trip when she first saw the Perseid star showers with her family The modes of vision and creativity involved in exploration and science form the main subjects and themes of this book whose settings include a biology fieldwork session the father's science classroom and Linnaeus's Lapland explorations Even poems not concerned explicitly with science such as Art and Archeology and The Zero at the Bone which concerns an exhibitionist place and portray experience under a microscope rendering the landscape with scrupulous detail

**Zero at the Bone** Michael Cadnum, 2015-09-29 His sister's disappearance threatens to tear a boy's family apart Cray is the first to smell smoke It's his 1st week on the job working alongside his father at the family plant and he's afraid of making a fool of himself So he waits on the factory floor the machines screaming and wood chips flying But he's finally certain The roof is on fire and if the blaze isn't put out the factory could explode Cray calls the fire department and races through the building telling the workers to flee He's amazed by how calm they are The fire is extinguished and life slowly returns to normal But the true crisis is just around the corner When Cray's sister disappears and the police search reveals no trace of her he discovers fear affects everyone differently and it's not always smart to stay calm

**Can Poetry Save the Earth?** John Felstiner, 2009-04-07 Poems vivifying nature have gripped people for centuries From Biblical times to the present day poetry has continuously drawn us to the natural world In this thought provoking book John Felstiner explores the rich legacy of poems that take nature as their

subject and he demonstrates their force and beauty In our own time of environmental crises he contends poetry has a unique capacity to restore our attention to our environment in its imperiled state And as we take heed we may well become better stewards of the earth In forty brief and lucid chapters Felstiner presents those voices that have most strongly spoken to and for the natural world Poets from the Romantics through Whitman and Dickinson to Elizabeth Bishop and Gary Snyder have helped us envision such details as ocean winds eroding and rebuilding dunes in the same breath wild deer freezing in our presence and a person carving initials on a still living stranded whale Sixty color and black and white images many seen for the first time bear out visually the environmental imagination this book discovers a poetic legacy more vital now than ever

*Investigation of the Central Nervous System* Robert Henry Clarke, Edward Erskine Henderson, 1920 *The Paradelle* Theresa M. Welford, 2005 A few years ago I wrote a poem that I titled *Paradelle* for Susan It was the only *paradelle* ever to have been written because I invented the form in order to write the poem What I set out to do was write an intentionally bad formal poem Auden said there was nothing funnier than bad poetry and I thought a horribly mangled attempt at a formal poem might have humorous results I considered using an already existing form but I figured enough bad sonnets and bad sestinas are already being written these days without me adding to the pile The *paradelle* invites you in with its offer of nursery rhyme repetition then suddenly confronts you with an extreme verbal challenge It lurches from the comfort of repetition to the crossword puzzle anxiety of fitting a specific vocabulary into a tightly bounded space While the level of

difficulty in most verse forms remains fairly consistent throughout the parodelle accelerates from kindergarten to college and back to kindergarten several times and ends in a think tank called the Institute for Advanced Word Play Thus the jumpy double nature of the parodelle so unsteady so schizo so right for our times Billy Collins from the Introduction *The Johns Hopkins Hospital Reports* Johns Hopkins Hospital,1920 **Reports** Johns Hopkins Hospital,1921 **Zero at the bone** Jane Seville,2020 **Gateway English** ,1968
