Wising Up the Marks Timothy S. Murphy, 1998-01-05 William S Burroughs is one of the twentieth century's most visible controversial and baffling literary figures. In the first comprehensive study of the writer Timothy S Murphy places Burroughs in the company of the most significant intellectual minds of our time. In doing so he gives us an immensely readable and convincing account of a man whose achievements continue to have a major influence on American art and culture. Murphy draws on the work of such philosophers as Gilles Deleuze, Félix Guattari, Theodor Adorno and Jean Paul Sartre and also investigates the historical contexts from which Burroughs's writings arose. From the paranoid isolationism of the Cold War through the countercultural activism of the sixties to the resurgence of corporate and state control in the eighties Burroughs's novels, films and music hold a mirror to the American psyche. Murphy coins the term amodernism as a way to describe Burroughs's contested relationship to the canon while acknowledging the writer's explicit desire for a destruction of such systems of classification. Despite the popular mythology that surrounds Burroughs his work has been largely excluded from the academy of American letters. Finally here is a book that presents a solid portrait of a major artistic innovator, a writer who combines aesthetics and politics and who can perform as anthropologist, social gad or media icon all with consummate skill.

Reshaping Our National Parks and Their Guardians Kathy Mengak, 2012. This biography of the seventh director of the National Park Service brings to life one of the most colorful, powerful, and politically astute people to hold this position. George B. Hartzog Jr. served during an exciting and volatile era in American history. Appointed in 1964 by Secretary of the Interior Stewart Udall, he benefited from a rare combination of circumstances that favored his vision, which was congenial with both President Lyndon Johnson's Great Society and Udall's robust environmentalism. Hartzog led the largest expansion of the National Park System in history and developed social programs that gave the Service new complexion. During his nine-year tenure, the system grew by seventy-two units totaling 27 million acres, including not just national parks but historical and archaeological monuments and sites, recreation areas, seashores, riverways, memorials, and cultural units celebrating minority experiences in America. In addition, Hartzog sought to make national parks relevant and responsive to the nation's changing needs.
