steep slopes history He was a high mountain guide in 1973 and was one the first who skied extreme downhills in the Alps the Andes in Antarctica or in the Himalayas As an ENSA professor he supervised during several years the mountain guides training in Bolivia and Nepal EXCERPT The Le Tour ski station is served by the Charamillon col de Balme lift systems The skiing here is accessible user friendly and good for all the family For the more committed off piste skier there is also the descent to Les Jeurs in Switzerland on the north face above Vallorcine However as with any area at the head of a valley Le Tour is subject to frequent changes in the air currents and you should be aware of what they are doing if you are planning to ski the routes here In fact although Le Tour has an image as an area for relatively easy moyenne montagne skiing you should not underestimate the ever present risks The accumulation of snow that occurs as a direct result of these specific conditions is responsible each year for a number of accidents and avalanches The high mountains that overlook this mixture of forests and pastures form the eastern extremity of the Mont Blanc Massif and it has been quite calm here since the snout of the glacier avalanched

EXCERPT The Aiguilles Rouges chain could have suffered from being so close to its illustrious neighbour the Mont Blanc Massif but in fact the huge variety of routes on offer here means that the two ranges complement each other From easy tours to narrow couloirs from routes with easy access from ski lifts to numerous possible traverses the Aiguilles Rouges is an integral part of the Mont Blanc region Thanks to this ease of access and the great circuits that can be done in this area this is also the starting point for trips heading north to Sixt Flaine and Les Portes du Soleil or to the east and Switzerland to the high limestone Alps via the Col de la Tour Salire and the Barberine cols not forgetting of course the great routes on the Bel Oiseau the Dent de Fenestral or Fontanabran between Finhaut and Les Mar cottes Moreover this chain of crystalline rock gneiss also offers superb views of the whole of the Mont Blanc Massif which are both breathtakingly beautiful and more importantly are a great opportunity for getting a look at routes for the future The other advantage the Aiguilles Rouges has is that you can easily choose the best side of the chain to ski on as the ski lifts and the pistes are all on the south side and the best descents are to be had on the wild north side where the snow stays in excellent condition for a long time The secondary ranges of the Perrons and Luisin Emaney don t have ski lifts and usually get skied at the beginning of the season for road access to the Emosson Dam as the snow cover is general better here the area is near the very wet valleys of Haut Faucigny

charming accounts and instructive advice Anselme Baud shares with us his precious and wide experience as a high mountain guide and an exceptional skier ABOUT THE AUTHOR Born in Morzine in 1948 Anselme Baud left his mark on the Alps skiing steep slopes history As a high mountain guide in 1973 he was one the first to ski on extreme downhills in the Alps the Andes in Antarctica or in the Himalayas As an ENSA professor he supervised during several years the mountain guides trainings in Bolivia and Nepal EXCERPT The Vall e Blanche forms the backbone of this area and it can be accessed quickly from the Aiguille du Midi the starting point for routes on the G ant Glacier the Tacul and the P riades Unlike the routes in the previous chapter most of the tours here can be done in a day and the height gains are not excessive maximum of 900m Also in this part of the Massif there is a broad range of routes and you will find steep slopes and classic tours next door to each other For all these reasons this is a very popular area There are lots of people on the easy routes by the Aiguilles Marbr es and the Col d Entr ves while the Br che Puiseux area is less popular but also more and more amateur extreme skiers are trying routes on the Tour Ronde and the big couloirs on the Tacul Diable Gervasutti Jager However these figures pale into insignificance compared with the hordes of skiers and boarders who can be found on the world famous Vall e Blanche from the beginning of the winter right through to the end of May Indeed you feel the contrast most strikingly once with skins on your skis you start climbing up towards the less accessible routes
