Social Casework A Problem Solving Process:

Social Casework Helen Harris Perlman,1957-03-15 This is a basic book in social casework Its thesis is that among all the complexities within the subject matter and operations of casework there are certain constant elements forces and processes which give coherence and unity to its practice Mrs Perlman identifies and analyzes these constants and views them within the logical framework of problem solving In turn problem solving as a casework process is examined in its likeness to normal human problem solving efforts The result is an approach to learning and thinking about casework which is at once organized synthesized and imaginative The book s usefulness is enhanced by the author s lucid and pointed style Social Casework Helen Harris Perlman,1956 **Social Casework** ,1957 *Social Casework* Helen Perlman Harris,1960

Social Work Treatment Francis J. Turner,2011-03-15 First published in 1974 Social Work Treatment remains the most popular and trusted compendium of theories available to social work students and practitioners It explores the full range of theoretical approaches that drive social work treatment and knowledge development from psychoanalysis to crisis intervention This treasure trove of practice knowledge equips professionals with a broad array of theoretical approaches each of which shine a spotlight on a different aspect of the human condition Emphasizing the importance of a broad based theoretical approach to practice it helps the reader avoid the pitfalls of becoming overly identified with a narrow focus that limits their understanding of clients and their contexts This sweeping overview of the field untangles the increasingly complex problems ideologies and value sets that define contemporary social work practice The result is an essential A to Z reference that charts the full range of theoretical approaches available to social workers regardless of their setting or specialty Treatment In Crisis Situations Naomi Golan,1998-10 Treatment Approaches in the Human Services is a new series of books by distinguished social work practitioners and educators prepared under the general editorship of Francis J Turner Its objective is to present both the theoretical basis and the direct practice implications of the various thought systems upon which clinicians draw in their work and to make this rich accumulation of theory and methods accessible not only to social workers but to practitioners in other helping professions as well The books are also intended for the student professional the senior scholar and the teacher of professionals providing a bridging resource between practice and theory development Each volume in the series analyzes the conceptual base of a particular intervention strategy or set of therapeutic procedures identifies its theoretical origins compares it to other thought systems and explains and describes in concrete detail how it is applied in practice Further it identifies the areas of on going and needed research to make that approach an even more useful tool to the clinician **Social work practice in medical care and rehabilitation.**
