## **Virtual Reality Office Advanced:**

Virtual Reality, Training's Future? Robert J. Seidel, Paul R. Chatelier, 2013-06-29 In 1988 the NATO panel governing human sciences Panel 8 on Defence Applications of Human and Bio Medical Sciences established a Research Study Group to synthesize information relevant to Advanced Technologies Applied to Training Design During its first phase the RSG established an active exchange of information on advanced technologies applied to training design and stimulated much military application of these technologies With the increased emphasis on training throughout the alliance Panel 8 during its April 1991 meeting decided to continue with Phase II of this RSG focusing in the area of advanced training technologies that were emerging within the alliance In order to accomplish its mission the RSG held a series of workshops Leaders in technology and training were brought together and exchanged information on the latest developments in technologies applicable to training and education This volume represents the last in a series based on the NATO workshops In Part One it details findings from the last workshop Virtual Reality for Training and in Part Two we provide a summary perspective on Virtual Reality and the other emerging technologies previously studied These include computer based training expert systems authoring systems cost effectiveness and distance learning It is a natural extension to proceed from learning without boundaries to virtual environments From the extended classroom to the individual or team immersion in a distributed virtual and collaborative environment is an easy conceptual step
