Paula J. Caplan

Womandefined Motherhood:

Woman-Defined Motherhood Jane Price Knowles, Ellen Cole, 2014-02-04 Finally here is an enlightening and empowering book that defines motherhood from a feminist perspective and then explores the implications of that definition. Feminist authors examine some of women's full, rich, and varied thoughts and experiences about motherhood. In contrast to the too often accepted male notions of what constitutes a good mother or a normal family, this important book presents a comprehensive and balanced view of motherhood as women have observed and experienced it. The major issues surrounding motherhood today are closely examined: the pervasive problem of mother blaming and mother hating and solutions to overcome it; ageism, sexism, and motherhood relationships between mothers and daughters; relationships between stepmothers and stepchildren; motherhood and sex roles within the family; adoption, infertility, and childlessness. Special insight is also provided into the concerns of women who are mothers: lesbians, women of color, mothers of biracial children, and adoptive mothers of children from different cultures. *Woman Defined Motherhood* is must reading for women including both mothers and daughters, for therapists and other professionals supporting women, and for anyone interested in mothering.

Women's Sexuality Across the Life Span Judith C. Daniluk, 2003-06-09 Moving beyond a traditional focus on sexual functioning, this book emphasizes the complex interaction of psychological, social, cultural, and biological influences on women's sense of themselves as sexual beings. Written for practitioners and educators, its goal is to challenge contradictory messages and meanings that cause many women to feel disconnected from their bodies and from their needs and desires. Themes explored include the development of sexual awareness and sexuality in childhood and adolescence; the critical sexual choices of young adulthood; and the multiple transitions characterizing the middle and later years of life. The book features creative exercises and interventions to help girls and women construct more affirming sexual meanings.

The Feminism of Uncertainty Ann Snitow, 2015-08-27 *The Feminism of Uncertainty* brings together Ann Snitow's passionate, provocative dispatches from forty years on the front lines of feminist activism and thought. In such celebrated pieces as *A Gender Diary*, which confronts feminism's need to embrace while dismantling the category of woman, Snitow is a virtuoso of paradox. Freely mixing genres in vibrant prose, she considers Angela Carter, Doris Lessing, and Dorothy Dinnerstein, and offers self-reflexive accounts of her own organizing, writing, and teaching. Her pieces on international activism, sexuality, motherhood, and the waywardness of political memory all engage feminism's impossible contradictions and its utopian hopes.

Reader's Guide to Women's Studies Eleanor Amico, 1998-03-20 *The Reader's Guide to Women's Studies* is a searching and analytical description of the most prominent and influential works written in the now universal field of women's studies. Some 200 scholars have contributed to the project, which adopts a multi-layered approach, allowing for comprehensive treatment of its subject matter. Entries range from very broad themes such as *Health General Works* to entries on specific individuals or more focused topics such as *Doctors*.

Contradicting Maternity Carol Long, 2009-06-01 Drawing on rich and poignant

interviews with mothers who have been diagnosed HIV positive *Contradicting Maternity* provides a rare perspective of motherhood from the mother's point of view Whereas motherhood is often assumed to be a secondary identity compared to the central figure of the child this book reverses the focus arguing that maternal experience is important in its own right The book explores the situation in which two very powerful identities those of motherhood and of being HIV positive collide in the same moment This collision takes place at the interface of complex and often split social and personal meanings concerning the sanctity of motherhood and the anxieties of HIV The book offers an interpretation of how these personal and social meanings resonate with and also fail to encompass the experiences surrounding HIV positive mothers Photographs academic literature and the accounts of real women are read with both a psychodynamic and discursive eye highlighting the contradictions within maternal experience but also between maternal experience and the social imagination *Contradicting Maternity* will appeal to scholars students and practitioners in psychology the social sciences and the health professions The sensitive and readable analysis will also be of interest to mothers whether HIV positive or not

Woman-Defined Motherhood Jane Price Knowles, Ellen Cole, 2014-02-04 Finally here is an enlightening and empowering book that defines motherhood from a feminist perspective and then explores the implications of that definition Feminist authors examine some of women's full rich and varied thoughts and experiences about motherhood In contrast to the too often accepted male notions of what constitutes a good mother or a normal family this important book presents a comprehensive and balanced view of motherhood as women have observed and experienced it The major issues surrounding motherhood today are closely examined the pervasive problem of mother blaming and mother hating and solutions to overcome it ageism sexism and motherhood relationships between mothers and daughters relationships between stepmothers and stepchildren motherhood and sex roles within the family adoption infertility and childlessness Special insight is also provided into the concerns of women who are mothers lesbians women of color mothers of biracial children and adoptive mothers of children from different cultures *Woman Defined Motherhood* is must reading for women including both mothers and daughters for therapists and other professionals supporting women and for anyone interested in mothering

Women and Mental Health Marian Barnes, Norma Anderson Maple, 1992 **Women's Experience of Feminist Therapy and Counselling** Eileen McLeod, 1994 Initiatives beyond therapy and counselling tackling a range of social inequalities are also essential to realizing women's emotional wellbeing Counsellors' views and experience are also analysed to clarify the nature of their theories and methods the impact of practice on them as workers and the significance of attempts to create non hierarchical forms of organization *The Myth of Motherhood* Elisabeth Badinter, 1981 *Reading, Writing, and Reasoning* Marilyn S. Sternglass, 1991 *New Books on Women and Feminism*, 1991 **Women's Studies Index**, 1992 *Victimology*, 1977 *Women Studies Abstracts*, 1991 **Documentation Sur la Recherche Féministe**, 1982-03 **Women's Studies Programs in Thailand** Darunee Tantiwiranond, 1998 **Encyclopedia of Childbearing** Carol Mann, Barbara Katz

Rothman,1992-11-17 Childbearing is more than pregnancy and labor It is the having and not having of children It is a profound event in the lives of families and in the lives and bodies of women The feminist movement and the development of feminist studies have helped to rehumanize the subject of childbearing by removing it from the remote environment of institutionalized medicine The multi disciplinary Encyclopedia of Childbearing is a major contribution to this new accessibility

Don't Blame Mother Paula J. Caplan,1990 A nationally recognized expert on the psychology of women shows how the anger and agony of the mother daughter relationship can be replaced with a new bond based on understanding and respect

Woman Herself Robyn Rowland,1988 A Transdisciplinary Perspective on Women's Identity In this book Robin Rowland deals with a topic which is simultaneously personal social and political how men through patriarchal society have imposed upon women an identity based in biological difference and defined as inferior Throughout the book Rowland affirms both women's continuing resistance to patriarchal definitions and their capacity to make a new identity *Woman Herself* is passionate contentious and essential reading for all those interested in the liberation of women

Negotiating Identities in Women's Lives Christine W. Sizemore,2002-05-30 Women face different psychological issues at different ages But these issues and the experience of confronting them depend on cultural contexts Literary works represent these psychological and social conflicts but the manner of representation varies according to the culture of the author This book brings together feminism postcolonial theory and developmental psychology to analyze how traditional literary forms are transformed by women writing in different cultures The volume discusses works by such well known authors as Margaret Atwood Nadine Gordimer Keri Hulme and Doris Lessing along with fiction by less studied writers such as Barbara Burford Joan Riley and Jessica Anderson By juxtaposing novels from different cultures the volume highlights the new ways in which women renegotiate their identities at different ages and writers reconfigure novelistic forms The first chapter looks at the search for adulthood in Tsitsi Dangarembga's *Nervous Conditions* set in Zimbabwe and in Margaret Atwood's *Cat's Eye* set in Canada The second on the search for intimacy analyzes how Barbara Burford's lesbian novella *The Threshing Floor* and Keri Hulme's evocation of Maori commensalism in *The Bone People* undo the traditional romance plot Later chapters offer similar examinations of how various life stages such as the searches for place space and integrity are treated in other works

If you ally infatuation such a referred **Womandefined Motherhood** ebook that will pay for you worth, get the completely best seller from us currently from several preferred authors. If you desire to droll books, lots of novels, tale, jokes, and more fictions collections are then launched, from best seller to one of the most current released.
