The Lyric Potential:

Reading Poetry Tom Furniss, Michael Bath, 2013-08-16 Reading Poetry offers a comprehensive and accessible guide to the art of reading poetry. Successive chapters introduce key skills and critical or theoretical issues enabling users to read poetry with enjoyment, insight, and an awareness of the implications of what they are doing. This new edition includes a new chapter on Post colonial Poetry, a substantial increase in the number of end of chapter interactive exercises, and a comprehensive Glossary of poetic terms. Not just an add on, the Glossary works as a key resource for the structuring of particular topics in any individual teaching or learning programme. Many of the exercises and interactive discussions develop not only the skills of competent close reading but also the necessary confidence and experience in locating historical and other contextual information through library or internet searches. The aim is to enhance readers' literary and scholarly competence and to make it fun.

Complicating the History of Western Translation Siobhán McElduff, Enrica Sciarrino, 2014-04-08 As long as there has been a need for language, there has been a need for translation, yet there is remarkably little scholarship available on pre-modern translation and translators. This exciting and innovative volume opens a window onto the complex world of translation in the multilingual and multicultural milieu of the ancient Mediterranean. From the biographies of emperors to Hittite scribes in the second millennium BCE to a Greek-speaking Syrian slyly resisting translation under the Roman empire, the papers in this volume offer fresh and innovative contributions by new and established scholars from a variety of disciplines including Classics, Near Eastern Studies, Biblical Studies, and Egyptology. They show that translation has always been a phenomenon to be reckoned with. Accessible and of interest to scholars of translation studies and of the ancient Mediterranean, the contributions in *Complicating the History of Western Translation* argue that the ancient Mediterranean was a translational society even when paradoxically cultures resisted or avoided translation. Indeed, this volume envisions an expansion of the understanding of what translation is, how it works, and how it should be seen as a major cultural force. Chronologically, the papers cover a period that ranges from around the third millennium BCE to the late second century CE; geographically, they extend from Egypt to Rome to Britain and beyond. Each paper prompts us to reflect about the problematic nature of translation in the ancient world and challenges monolithic accounts of translation in the West.

Poetry in Dialogue in the Duecento and Dante David Bowe, 2020-11-20 *Poetry in Dialogue in the Duecento and Dante* provides a new perspective on the highly networked literary landscape of thirteenth and fourteenth century Italy. It demonstrates the fundamental role of dialogue between and within texts in the works of four poets who represent some of the major developments in early Italian literature: Guittone d'Arezzo, Guido Guinizzelli, Guido Cavalcanti, and Dante. Rather than reading the cultural landscape through the lens of Dante's works, significant though they may be, the first part of this study reconstructs the rich network of literary, especially poetic, dialogue that was at the heart of medieval writing in Italy. The second part uses this reconstruction to demonstrate Dante's engagement with and indebtedness to the dynamics of

exchange that characterised the practice of medieval Italian poets The overall argument for the centrality of dialogic processes to the emerging Italian literary tradition is underpinned by a conceptualisation of dialogue in relation to medieval and modern literary theory and philosophy of language By triangulating between Brunetto Latini's *Rettorica* Mikhail Bakhtin's dialogism and as sense of performative speech adapted from J L Austin Poetry in Dialogue shows the openness of its corpus to new dialogues and interpretations highlighting the instabilities of even the most apparently fixed monumental texts

Catullus in Twentieth-Century Music Stephanie Oade, 2024-08-24 One of the most famous voices to have survived from the Roman world Catullus's poetry is still amongst the most popular and widely read But what is it that makes this 2 000 year old voice so relevant so personal and so endlessly fascinating Reinvigorating discussions around the nature of Catullus's lyricism *Catullus in Twentieth Century Music* takes a completely new approach to Catullus and ideas of lyric It centres around four musical works from the twentieth century each one capturing the essence of Catullus in musical retellings and showcasing a very personal response to the original text Considering how and why these musical composers used Catullus's poetry as their stimulus allows us to uncover new ideas about Catullus's poetry By considering the very process of reception Stephanie Oade takes a broader view of lyric identifying traits and characteristics that are common to both music and poetry thus transcending the boundaries of individual art forms in order to consider the genre in larger interdisciplinary terms It offers insights into compositional processes and challenges audiences to think about ways of engaging with music and poetry More than anything it shows how ancient voices continue to resound in modernity and offer everlasting expression for our own experiences and emotions
