*The Chinese Face of Jesus Christ*: Roman Malek, 2017-07-05 This volume provides an annotated bibliography of the Western and Chinese literature on Jesus Christ in China. It is a sequel to the interdisciplinary collection on the manifold faces and images of Jesus throughout Chinese history from the Tang dynasty 618-907 to the present time. The present bibliography broadens and deepens the above-mentioned subject matter and also points out aspects which have been addressed in the contributions and anthologies of the previous volumes of *The Chinese Face of Jesus Christ* but which have not been treated thoroughly. Another aim of this bibliography is to initiate and enable further research particularly in China. It includes bibliographical data from the beginning of the introduction of Christianity to China until the year 2013, occasionally also until 2014. A list of Key References enables the reader to identify important works on main topics related to Jesus Christ in China. Some examples of book covers and title pages are included in the section of Illustrations. Other volumes of the collection *The Chinese Face of Jesus Christ* are in preparation. Vol 3c will present longer quotations from the sources listed in the present bibliography. Vol 4b will contain a general index with glossary and Vol 5 will deal with the iconography of Jesus Christ in China.

*The Semantics of Chinese Music*: Adrian Tien, 2015-01-14 Music is a widely enjoyed human experience. It is therefore natural that we have wanted to describe, document, analyse and somehow grasp it in language. This book surveys a representative selection of musical concepts in Chinese language, i.e. words that describe or refer to aspects of Chinese music. Important as these musical concepts are in the language, they have been in wide circulation since ancient times without being subjected to any serious semantic analysis. The current study is the first known attempt at analysing these Chinese musical concepts linguistically, adopting the Natural Semantic Metalanguage (NSM) approach to formulate semantically and cognitively rigorous explications. Readers will be able to better understand not only these musical concepts but also significant aspects of the Chinese culture which many of these musical concepts represent. This volume contributes to the fields of cognitive linguistics, semantics, musicology and Chinese studies, offering readers a fresh account of Chinese ways of thinking, not least Chinese ways of viewing or appreciating music. Ultimately, this study represents trailblazing research on the relationship between language, culture and cognition.

*Chinese Fiction of the Cultural Revolution*: Lan Yang, 1998-07-01 The book covers the choice of subject matter, authorship and readership of Cultural Revolution fiction. It analyses the characterization of heroes promoted in the literary and artistic field during this period. By comparing Cultural Revolution fiction with the fiction of the preceding period, with Soviet fiction and with some traditional Chinese and Western fiction, this analysis emphasizes the ideological and cultural significance of the characteristics shown in the heroes' personal background and their physical, temperamental and behavioural qualities, etc. This book will be of significant benefit to both students and scholars of Chinese literature, language and society.

*Chinese Communist Espionage*: Peter Mattis, Matthew Brazil, 2019-11-15 This is the first book of its kind to employ hundreds of Chinese sources to explain the history and current

state of Chinese Communist intelligence operations It profiles the leaders top spies and important operations in the history of China s espionage organs and links to an extensive online glossary of Chinese language intelligence and security terms Peter Mattis and Matthew Brazil present an unprecedented look into the murky world of Chinese espionage both past and present enabling a better understanding of how pervasive and important its influence is both in China and abroad **Chinese** Centre for Information on Language Teaching and Research,1986 Dictionaries ,1982 **On the Problems of Chinese Lettered Words** Liu Yongquan,2002 **Journal of the Chinese Language Teachers Association** ,1980 **Ancient Chinese Bronzes in the Arthur M. Sackler Collections** ,1990 Modernisation of Chinese Culture Jana S. Rošker,Nataša Vampelj Suhadolnik,2013 The editors are grateful to the Chiang Ching kuo Foundation for its generous support of their research work which enabled them to publish the present book The present book carefully maps the Chinese modernisation discourse highlighting its relationship to other similar discourses and situating it within historical and theoretical contexts In contrast to the majority of recent discussions of a oeChinese development model that tend to focus more on institutional then cultural factors and are more narrowly concerned with economic matters than overall social development the book offers several important focal points for many presently overlooked issues and dilemmas The multifaceted perspectives contained in this anthology are not limited to economic social and ecological issues but also include political and social functions of ideologies and cultural conditioned values representing the axial epistemological grounds of modern Chinese society 2011 was the 100th anniversary of the Xinhai Revolution The centennial is relevant not only in terms of state ideology but also plays a significant role within academic research into Chinese society and culture This historic turning point likewise represents the symbolic and concrete linkages and tensions between tradition and modernity progress and conservatism traditional values and the demands for adjustment to contemporary societies The book shows that Chinese transition from tradition to modernity cannot be understood in a framework of a unified general model of society but rather through a more complex insight into the interrelations among elements of physical environment social structure philosophy history and culture *Belief, History and the Individual in Modern Chinese Literary Culture* Artur K. Wardega,2009 A value system in constant change a longing for stability amid uncertainties about the future a new consciousness about the unlimited challenges and aspirations in modern life these are themes in modern Chinese literature that attract the attention of overseas readers as well as its domestic audience They also provide Chinese and foreign literary researchers with complex questions about human life and achievements that search beyond national identities for global interaction and exchange This volume presents ten outstanding essays by Chinese and European scholars who have undertaken such exchange for the purpose of examining the individual and society in modern Chinese literature **Subject Catalog** Library of Congress,1980 **Library of Congress Catalogs** Library of Congress, **The Role of the Chou ("clown") in Traditional Chinese Drama** Ashley Thorpe,2007 This is the first Western language book to examine the chou
