Conference,2003     *The Principal* Gerald C. Ubben,Larry W. Hughes,1992 This book provides a bridge from learning the theory of school administration to the practical problem solving in which school principals and other leaders engage This book continues to be based on the research indicating linkages between educational leadership and productive schools especially in terms of outcomes for children It supports the understanding that formal leadership in schools is a complex multi faceted task that requires continual learning and that effective school leaders must be strong educators focused on the central issues of learning teaching and school improvement School leaders must also be moral agents and social advocates for the children and communities they serve while working with community stakeholders to create learning communities that value and care for others as individuals and as members of the educational community For those aspiring to become principals or hold leadership positions     **Commitment to Excellence** Robert Harlan Davis,Allan J.
