Bernbach the adman s adman who reinvented advertising and grappled creatively with the profound skepticism of a propagandea weary midcentury public Jackall and Hirota argue that the tools in trade and habits of mind of image makers have now migrated into every corner of modern society Advocacy is now a vocation for many and American society abounds as well with technicians in moral outrage including street smart impresarios feminist preachers and bombastic talk radio hosts The apparatus and ethos of advocacy give rise to endlessly shifting patterns of conflicting representations and claims and in their midst Image Makers offers a clear and spirited understanding of advocacy in contemporary society and the quandaries it generates

Far Left of Center Harvey Klehr,1988-01-01 Histories of American radical left groups abound The Communist party the tiny Trotskyist movement and the New Left have all been abundantly chronicled Very little information has been available however about the radical left today Far Left of Center remedies that deficit Many people erroneously assume that with the collapse of the New Left in the early 1970s American radicalism disappeared It is true that the 1980s have not been good years for radicals Their ideologies particularly Marxism Leninism have been discredited their tactics and visions have been repudiated and they have been plagued by internal problems Even so the history of American radicalism suggests that such movements have rebounded in the past and in any event Marxist Leninist groups have often had an impact far out of proportion to their size Part One deals with the Communist party of the United States the largest and most influential Marxist Leninist group in the United States Its membership is only about 15 000 but it has been growing steadily in recent years This section also discusses a variety of front groups which the party has created to facilitate work and to garner support from people who would not otherwise cooperate with Communists Part Two deals with Trotskyist Maoist and other Marxist Leninist organizations in the United States Far more militant than the CPUSA these sects are usually quite small often under a thousand members They include the tiny offshoots of the New Left Part Three deals with organizations that eschew formal ties to Marxist Leninist parties and are not under the control of these parties although they may work with them toward some of the same objectives Many of these have especially targeted Israel as a danger to world peace and security They are also hostile to American foreign policy and support Marxist revolutionary regimes abroad The basic premise of Far Left of Center is that these far left groups support and defend oppressive and totalitarian regimes and cooperate with those dedicated to the destruction of democracy and intellectual freedom The author is careful to distinguish these groups from democratic socialists in the United States who have vigorously and continuously denounced Marxism Leninism and those regimes founded on its principles This book is not about these organizations The focus is instead on groups whose denunciations of American society and political life go hand in hand with testimonials to some of the most repressive regimes in the world Klehr has written a sober well documented comprehensive account of the radical left in the United States today
